Cavity Sliders™

CaviDoor

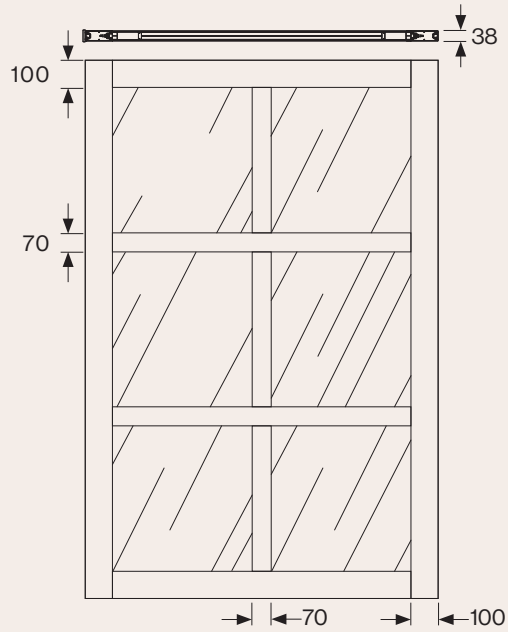
NewYorker®

NewYorker®

The CS NewYorker® is a stylish pre-finished aluminium framed door with no visible screws or fastenings.

This extremely versatile door is ideal for cavity sliding, surface sliding or hinged applications. It can also be used as a fixed panel in multi-track setups.

A range of colours and finishing options are available to suit your requirements.



Options

The frame may be anodised or powder coated to match decor.
A variety of glass types and thickness can be used, from 4mm to a maximum of 10.38mm. Glass must comply with NZS 4223.3:2016.

Alternatives to glass include metal sheet, whiteboard, Perspex, MDF or hardboard sheet (up to 10mm thick).

Features

- Heavy duty stiles and rails allow the doors to be manufactured to large sizes.
- All aluminium components are screwed together for strength and reliability.
- Can be used in an automated cavity slider unit.
- Centrally glazed - no unsightly clip-on glazing beads.
- The clip-in front clashing covers all visible fixings.
- Most standard back-set mortice locks will fit the 100mm front stile.
- Maximum Size: 2400mm high x 2000mm wide.
  (Larger sizes may be available on request.)
- Low maintenance.

How to Specify (example)
