Cavity Sliders™

CaviSlider

TimberFormed®

TimberFormed®

Features

The CS TimberFormed cavity slider is engineered for ultimate adaptability, accommodating made-to-measure sizes up to 3000mm high x 3200mm wide.

With an impressive door weight capacity of 240kg, this cavity slider is perfect for even the most demanding applications, offering a robust and efficient solution for maximising space in any environment.

- Designed to fit into standard 90mm wall framing.
- All aluminium components screwed together for strength and reliability.
- Special jamb timbers and profiles available on request.
- Supplied fully assembled, ready for on-site installation.
- The CS SmartMount system streamlines traditional installation processes and allows for easy removal of the door.
