

↑ The CS SurfaSlideR Auto bi-parting double unit, with frameless glass doors, provides an ideal front entrance at this shopping mall.

Features

- ▮ Heavy duty components specifically designed for longevity and quiet operation.
- ▮ Factory assembled - comes to site ready to install.
- ▮ Microprocessor Controller with multiple functions and LCD screen for ease of use.
 
- ▮ Door weight capacity: from lightweight to 125kg (single) and 250kg (double) doors.
- ▮ Magnetic or mechanical locks are not required - motor holds door locked in the closed position.
- ▮ Unlike auto doors that use magnetic or mechanical locks, with the motor locking system, when the door is opened from the 'locked mode' there is no time delay.
- ▮ Remote control for adjusting settings - Hold Close, Hold Open, Exit Only, Partial Open 50%, 65% and 80%.
 
- ▮ Can be specified using either a frame-less glass door leaf or our ParisiaN or NewYorkeR door leaves.
- ▮ Emergency battery back-up.
 
- ▮ Timed events: doors can work in conjunction with over-riding PLC to lock/unlock at designated times.
- ▮ 4-position key switch to choose operating mode.
 
- ▮ Compact design - all electronics contained within aluminium track and pelmet section.
 
- ▮ All units come with an overhead motion sensor.
 
- ▮ Pre-finished pelmet - either powder coated or anodised in a choice of colours.
 

CS SurfaSlideR Auto

With 20 years experience in manufacturing sliding doors and a further 10 successful years in the automated door market, **CS FOR DOORS** offers a sophisticated range of automatic door systems - **CS AutomaticUnits**.

The **CS SurfaSlideR Auto** unit is a high-quality automatic entrance door system designed for surface sliding applications.

An automated surface sliding door system. High-quality parts & full after sales service ensure outstanding reliability.

↑ A functional, reliable and attractive point of entry - the CS SurfaSlideR Auto fitted with our Parisian doors.

This system is designed to be fitted with either framed or frame-less glass doors.

For a complete auto door solution that's particularly stylish and functional specify our aluminium NewYorkeR or ParisiaN. Both doors can be powder coated or anodised to match the pelmet and the panel options are endless - glazed or otherwise.

Like all CS AutomaticUnitS, the CS SurfaSlideR Auto is extremely flexible, with a multitude of control settings and functions.

For specifications (including door speeds) see back page.
