

## Smart Wardrobes, Laundry & Living

Häfele's latest offering to the marketplace is *Smart Spaces* – put together to enhance our already vast product selection by focusing on those often forgotten areas of the home, such as bedrooms, wardrobes and laundries.

*Smart Spaces* will fulfill all your hardware requirements when designing around small and difficult areas of your home by offering savvy solutions to these common problems. This catalogue shows Häfele's strength as a hardware provider and offers you the total package for every corner of your interior building aspects, offering a premium range of high end products right through to our value economy range.

## Smart Spaces. For Smart Wardrobes, Laundry & Living areas.

---

Our ability to successfully source products from around the globe coupled with our desire to keep you in touch with constantly evolving design concepts, allows us to bring you the very latest product offerings, such as our *Elite* range of soft closing wardrobe fittings and accessories (pg 1-12), *Slider E35* for flush fitting soft closing sliding doors (pg 105) to the *Desk and bed combo* fitting (pg 85) which allows a desk and bed to accommodate the same space, offering a solution to the common question: "Should the spare room be a bedroom or an office?" Now it can be both.

Due to constant hardware evolution and valued customer feedback, the current Häfele **topCo** program for kit set or fully assembled aluminium frame glass doors will include the new *Aluflex 80* soft closing sliding door system (pg 99-102) and the well priced *Indamatic* soft close door system (pg 97-98).

From October 2009 you will have the facility to specify door sizes and panel options through our simple to navigate, on-line door ordering program which will be available on our website
