

# Inspiring Glass Finishes

The 2017-2018 collection  
3M Architectural Markets

3M glass finishes are  
state-of-the-art products.

The unique designs are in  
synch with fashionable  
market trends.

Elegance and functionality  
meet durability.

- Long-lasting
- Easy to apply
- Easy to maintain

# Glass design

Glass is an essential design element in the construction of new building. Glass windows stand for transparency and elegance. They deliver natural daylight and visual comfort. In the workplace, glass fosters contact with the outside world – and generates a heightened sense of well-being and boosts productivity.

## Privacy. Aesthetics. Communication.

The extensive 3M Architectural Markets portfolio of creative film finishes for glass opens a world of new possibilities for any design concept.

3M™ Dichroic Glass Finishes	28

# Our solutions

3M provides a variety of innovative solutions for contemporary glass design, all of them individually adaptable to customer preferences. In addition to the premium results they deliver the products are easy to handle, quick to apply and can be removed at any time.

## Durability

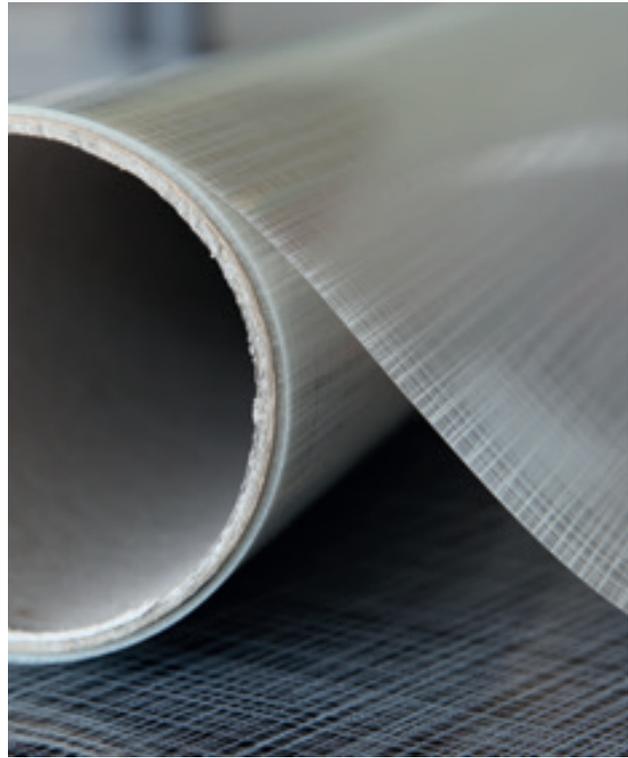

3M's expertise in adhesives ensures fast, safe and durable application to a variety of glass surfaces.

## Versatility

3M glass finishes are perfectly suited for both interior and outdoor application. The materials are very flexible and easy to apply and they can be removed any time.

## Cost-effective

They achieve the aesthetic effect of etched, cut, textured or sandblasted glass at a fraction of the cost.

The application of the Fasara™, Crystal and Dichroic glass finishes will save you time and money and allow you to complete projects quickly. The film can be applied on site without interrupting regular business operations.

## Applications

3M glass finishes have an almost unlimited range of applications:

- Shopping malls, showrooms, shop construction and shop design
- Banking, insurance and consulting and agencies
- Hotels, restaurants, cafés and bars
- Municipal facilities, schools, hospitals and medical offices
- Wellness facilities and spas

3M glass finishes can be applied to glass doors or partitions, office windows and mirrors, in conference rooms, lobbies and stairwells.

Unlimited  
variety

# 3M™ Fasara™ Glass finishes

The 3M™ Fasara™ glass design series is made from premium polyester film. It is perfect to create privacy and decorative screens.

The series is available in 96 innovative designs. This is a hassle-free and individual way to optimise interiors or work environments in style.

The film is not only there for visual effect. It enhances safety since it holds together breaking glass and reduces UV radiation up to 99%.

## Product properties

- Premium, durable polyester film
- Pressure-sensitive acrylate adhesive
- Film thickness 0.075 mm to 0.153 mm
- Fire safety certification
- Measurements: 1.27 m x 30 m

## Cleaning and maintenance

- Wash with water without abrasive detergents as needed.

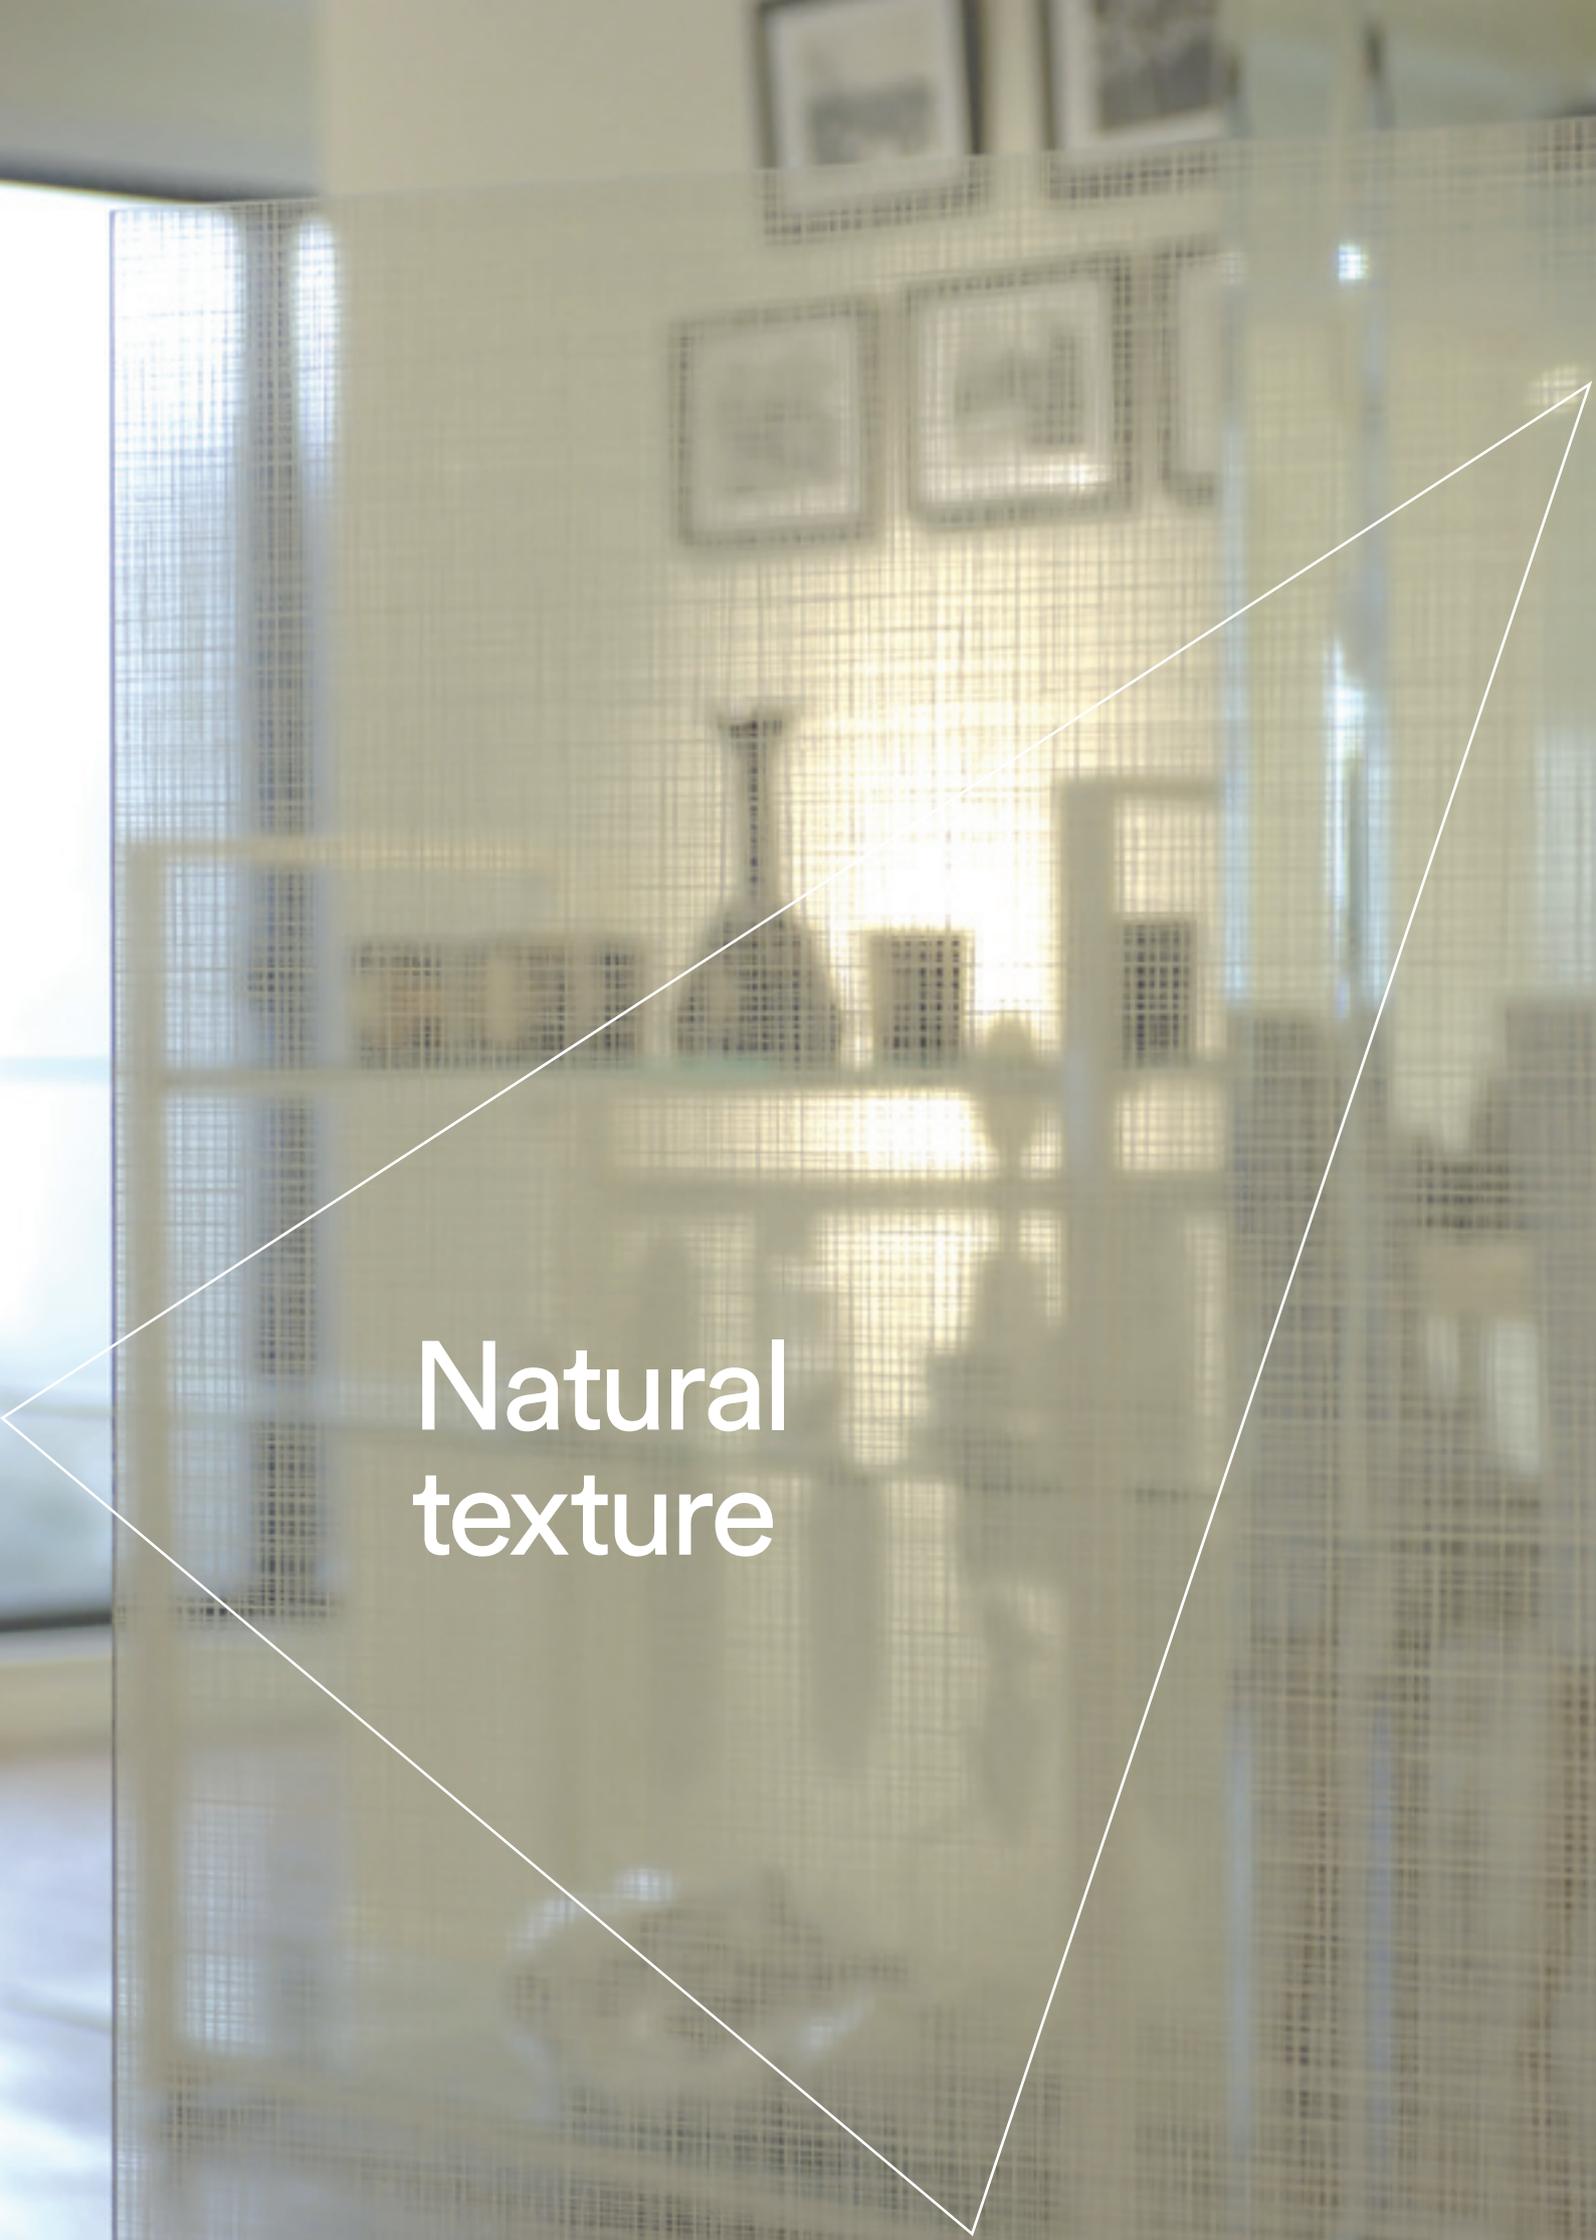

## Service life

- Up to 10 years

Frost Walnut Smoke

A photograph of a modern building facade featuring vertical slats. The slats are dark and create a rhythmic pattern of light and shadow. A white geometric shape, resembling a stylized 'V' or a triangle with a horizontal top edge, is overlaid on the image. The text 'Timeless stripes' is centered in the middle of the image in a white, sans-serif font.

# Timeless stripes

# 3M™ Fasara™ Stripes

Combinations of horizontal and vertical stripes varying in the intensity of their colours are an elegant solution for making partitions, balustrades and glass railings look fashionable.
