

PRODUCT OVERVIEW | 125MM WEATHERBOARD PANEL

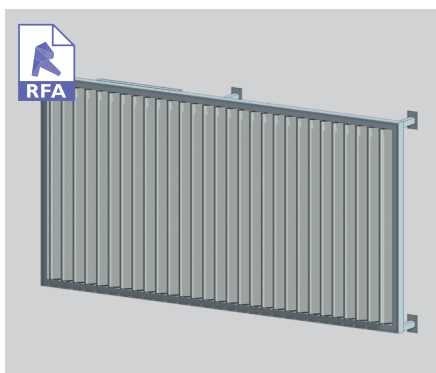

125MM WEATHERBOARD PANEL

wall panel / sun louvre / balustrade

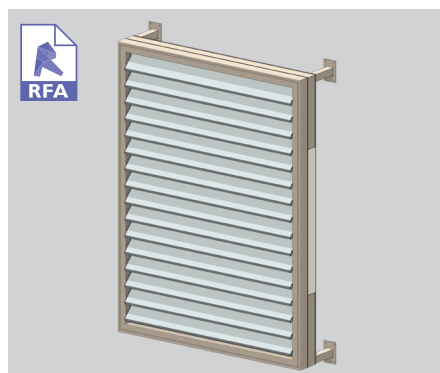

The 125mm and 180mm Weatherboard louvre panels provide a similar function with an alternative look to the Louvreline Flush panel louvres. Available as Spiral Pivot motorised or hand operable as well as end or bracket fixed. The blades can be run vertically or horizontally with each blade closing on to a recessed woolpile strip which eliminates metal to metal contact. When closed the mitred ends of the blades present a classic weatherboard panel effect.
