

**PRODUCT OVERVIEW** 180 LINEAR ROOF

180 LINEAR OPENING ROOF

## 180 LINEAR ROOF

clean lines, crisp edges

The 180mm Linear Opening Roof captures and compliments the look of today's architecture. With bold angular lines and sharp, cleanly defined edges, the flat blade is similar in appearance to the two Super Roofs. The edges of each blade are chamfered at 45 degrees, giving a tongue and grooved effect when closed.

This opening roof is now also available using the Spiral Pivot "Down-under" operating system, or alternatively it can be hand operated using a custom built crank and gearbox.

This style of opening roof now comes with a 185mm extra wide gutter to all four sides as standard.

### OPERATING YOUR OPENING ROOF - THE CHOICE IS YOURS
