

90MM KISS PIVOT MIDI LOUVRE

small to medium size

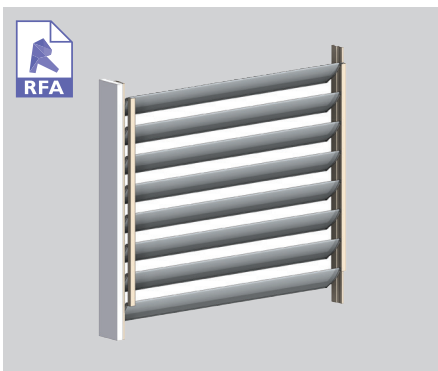

The 90mm Midi Louvre is similar to the 'wave' shape of the 70mm and 150mm blades.

The 90mm Midi is a perfect mix of compact width with good spans. This blade can be hand operated using the KISS Pivot system. The blades can be locked closed or in a number of opening positions.

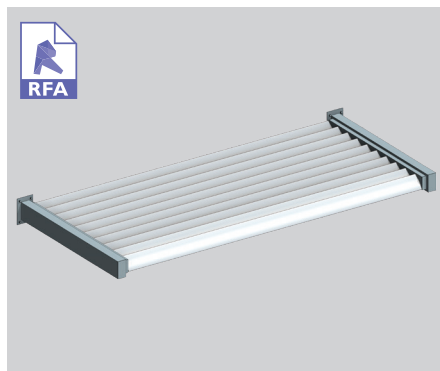

A woolpile closing insert ensures a snug fit when closed.

The 90mm Midi Louvre is well suited fixed within an opening or within sliding, bi-folding or hinged doors.

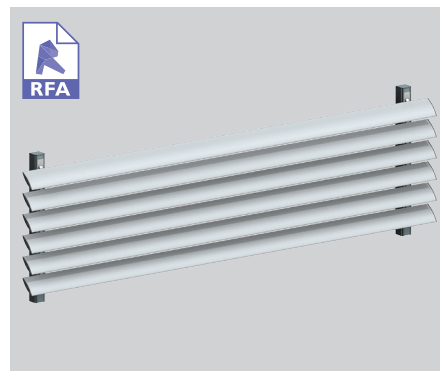

Also available end and bracket fixed.
