

HINGED LOUVRE & PLANTATION SHUTTERS

hinged louvre windows

Louvretec's Hinged louvre shutters and Plantation shutters use standard hinged doors extrusions and componentry. Originally used in plantation homes in the old south of America. Plantation Shutters are placed on the outside of homes to cover the windows giving heat and sun protection. Hinged louvre and Plantation shutters let you enjoy your view and natural light when opened and give privacy, sun control and heat reduction when closed.
