LIGHT-TEC CUSTOM RANGE OF PREMIUM OUTDOOR LIGHTING OPTIONS

All controlled by your Louvretec Remote Controller

1. LIGHTING TO INSIDE FACE OF GUTTER

2. LIGHTING TO FRONT FACE OF GUTTER

3. DOWNLIGHTS IN CONDUIT

Designed for lighting outdoor spaces:

Louvretec has developed the Light-tec custom range of premium lighting options, specifically to enhance a Louvretec Room, but equally as well suited for any Louvretec installation.

New technology:

- Light-tec is environmentally friendly, incorporating the very latest in silicon extrusion technology
- Dot-free, flexible, ultra-thin, ultra powerful and fully dimmable, the Light-tec range has been designed to seamlessly blend into the gutter and frame extrusion.

Three Light-tec options:

1. Continuous LED Pure Flow strip lighting to inside face of gutter

This popular option shines diffused light onto the underside of the louvre blade.

2. Continuous LED Neon strip lighting to front face of gutter

The ultra slim strip sits flush with the front face of the lighting clip providing seamless, continuous lighting to the inside of the Louvretec Room.

3. Underframe downlights

This option allows for lighting across the width of the Opening Roof or Outdoor Room.

All on 1 controller:

- One controller takes care of all motorisation, lighting and heating
- Set-up by your Louvretec Dealer, very little instruction is required - simply scroll through the screen display until the graphic showing your desired option appears.
- A simple two-button operation covers all functions.

NOTE: LIGHTING OPTIONS CAN VARY BETWEEN DEALERS AND COUNTRIES. DISCUSS SPECIFIC OPTIONS WITH YOUR LOCAL LOUVRETEC DEALER.

1. LIGHTING TO INSIDE FACE OF GUTTER

Light-tec Gutter Lighting

Inside face gutter lighting is our most requested lighting option

Louvretec’s new reversible strip gutter lighting extrusion provides a lighting option to the inside face of the gutter.

The continuous LED Pure Flow strip fits to the top inside face of the gutter, providing a warm diffused light shining directly onto the underside of the opening roof blades.

Available in Warm white, fully dimmable.

2. LIGHTING TO FRONT FACE OF GUTTER

Light-tec Gutter Lighting

Continuous LED Neon Strip lighting is now available fixed to the front face of the gutter.

Featuring ultra-slim uniform dot free lighting, incorporating the latest in advanced silicone technology and high weather resistance.

This option provides direct illumination into the Opening Roof or Louvretec Room, with mitre cut light corners blending seamlessly.

Available in Warm white, fully dimmable

SUPER FLEXIBLE WITH ULTRA SLIM SIZE

3. DOWNLIGHTS IN CONDUIT

Light-tec Downlights under frames

These beautiful compact micro downlights fit neatly within our custom two-piece Lighting conduit.

Typically the conduit fits underneath the aluminium box section frame, incorporating the lights "plug and play" wiring, which is hidden but easily accessible.

Bright enough for reading but fully dimmable.

Available in Warm white
