

NOTES:

- For 1.5 kPa floor live loads, floor joists may be selected from the 2 kPa live load floor joist tables. For 2 kPa floor live loads, floor joists may be selected from 3 kPa live load floor joist tables. Alternatively floor joists may be specifically designed for additional loads from Enviro Floor Panel (self weight 0.3kPa)
- Fixing 75mm Enviro Floor Panel
- Alternative 14gx100 screws may be substituted for Type 17 screws
- Provide fixings at 150mm centres to perimeter of floor and around openings
- Floor adhesive to be Bostik 'Safe Stud' or Sika 'Nailbond Premium'. Application, primers where required and preparation to be strictly in accordance with manufactures specification and requirements.
