

VENICE VILLA

VENICE VILLA

A STUNNING HISTORIC REVIVAL

Over the centuries, the Venetian terrazzo tile has earned a reputation as one of the most original craft creations of the Italian school, bringing prestige to villas and palazzos with extraordinary beauty in Italy's Veneto region and the world over. With two options - Venice and Rialto (differing in terms of the size of the chips that make the material so unique) - the Venice Villa collection reworks this noble tradition from a contemporary angle.

13 eye-catching colour choices are offered in four stunning sizes and three attractive finishes, untreated, polished, and textured. A collection that guarantees an eclectic, versatile design, channelling up-to-the minute style trends, in the most exclusive settings spanning homes and businesses.

UNE HISTOIRE QUI RECOMMENCE À SURPRENDRE

Au fil des siècles, le terrazzo vénitien s'est imposé comme une des créations les plus originales de l'école d'artisanat italienne, donnant du lustre aux villas et aux palais d'une beauté extraordinaire en Vénétie, en Italie et dans le reste du monde. Avec les deux âmes Venice et Rialto - caractérisées par deux interprétations différentes du grain qui anime les surfaces en les rendant uniques - la collection Venice Villa réinterprète cette tradition noble avec une sensibilité contemporaine.

13 variations de couleurs captivantes, en 4 formats saisissants et 3 finitions étonnantes : naturelle, lisse et structurée. Une collection qui assure un design éclectique et polyvalent, en ligne avec les tendances stylistiques les plus avancées, dans les contextes résidentiels et commerciaux les plus exclusifs.

DIE GESCHICHTE, DIE WIEDER ERSTAUNEN HERVORRUFT

Im Laufe der Jahrhunderte hat sich die venezianische Terrasse als eine der ursprünglichsten Schöpfungen der Schule des italienischen Handwerks durchgesetzt und hat Villen und Palazzi von außerordentlicher Schönheit in Venetien, in Italien und in der ganzen Welt zu Ehre verholfen. Mit den beiden Seelen Venice und Rialto - die durch zwei verschiedene Ausführungen hinsichtlich der Körnungsgröße geprägt werden, die die beiden Oberflächen belebt und einzigartig macht - interpretiert die Kollektion Venice Villa diese edle Tradition mit einer modernen Sensibilität. 13 reizvolle Farbvarianten in 4 eindrucksvollen Formaten und 3 bezaubernde Oberflächen: naturell, geschliffen und strukturiert. Eine Kollektion, die ein vielschichtiges und vielseitiges Design garantiert, das mit den modernsten stilistischen Trends in den exklusivsten Kontexten im Wohn- und Gewerbebereich einhergeht.

VENICE VILLA

UNA STORIA CHE RITORNA A STUPIRE

Nei secoli il terrazzo veneziano si è affermato come una delle creazioni più originali della scuola artigianale italiana, dando lustro a ville e palazzi di straordinaria bellezza in Veneto, in Italia e nel resto mondo.

Con le due anime Venice e Rialto – caratterizzate da due differenti interpretazioni dimensionali della grana che anima e rende uniche le superfici – la collezione Venice Villa rilegge questa nobile tradizione con sensibilità contemporanea.

13 accattivanti varianti di colore, in 4 suggestivi formati e 3 affascinanti finiture: naturale, levigata e strutturata.

Una collezione che assicura un design eclettico e versatile, in linea con le più avanzate tendenze stilistiche, nei più esclusivi contesti residenziali e commerciali.

Una resa stilistica e materica che tutto deve alla tradizione, realizzata con elementi naturali lavorati secondo processi costruttivi ecocompatibili, all'avanguardia e ad altissime prestazioni che ne riproducono logiche e caratteristiche.

Style and performance that owes everything to tradition. Produced using natural ingredients fashioned using state-of-the-art, environmentally compatible technology, this line recreates the essence and features of traditional materials.

Un rendement stylistique et matiériste qui doit tout à la tradition, réalisé avec des éléments naturels façonnés suivant des processus de construction écologiques, d'avant-garde et hautement performants qui en reproduisent les logiques et les caractéristiques.

Ein Ergebnis von Stil und Materie, das alles der Tradition zu verdanken hat, hergestellt mit natürlichen Elementen die mit umweltfreundlichen und fortschrittlichen Konstruktionsprozessen mit hohen Leistungen bearbeitet wurden, die deren Logik und Eigenschaften nachbilden.

N.B: I valori di resistenza allo scivolamento, coefficiente di attrito statico o dinamico, riportati sul catalogo, sono da ritenersi puramente indicativi e non vincolanti. Ogni eventuale specifica necessità dovrà essere da noi confermata al momento dell'ordine e comunque sempre prima della posa. La trasformazione di materie prime naturali, associate all'utilizzo di innovative tecnologie di produzione, consente di ottenere materiali dalle elevate prestazioni tecniche che si distinguono per i tipici effetti da sempre prerogativa dei materiali naturali. Le variazioni cromatiche, di venatura e la piccola puntinatura sono pertanto caratteristiche di alto pregio dei materiali FMG.

NB: Slip resistance values, coefficient of static or dynamic friction, in the are purely indicative and not binding. Any specific requirements must be confirmed by us at the time of ordering and in any case before installation. The processing of natural raw materials, combined with the use of leading-edge patented production techniques, makes it possible to obtain hightech materials characterized by typical full-body effects, a feature that has always been the exclusive hallmark of quarried marble and stone. Chromatic variations, veining and speckling are thus prized characteristics of FMG materials.

ANM.: Die Werte für die Rutschfestigkeit, also des statischen oder dynamischen Reibungskoeffizienten, die im Katalog aufgeführt sind, sind als unverbindliche Richtwerte anzusehen. Alle spezifischen Anforderungen müssen von uns bei der Bestellung und in jedem Fall vor der Verlegung immer bestätigt werden. Die Umwandlung von natürlichen Rohmaterialien mit Hilfe von innovativen und patentierten Produktionstechnologien, ermöglicht die Herstellung von Materialien mit hoher technischer Leistungsfähigkeit, die sich durch die typischen vollgemischten Ekte unterscheiden und die seit jeher die charakteristische Besonderheit der Marmorarten und der Steine aus dem Steinbruch sind. Die farblichen Unterschiede, die Aderungen und die kleinen Punkte sind aus diesem Grund charakteristische Eigenschaften der Materialien FMG von besonderem.

Wert. N.B: Les valeurs de résistance au glissement, le coefficient de frottement statique ou dynamique, indiqués sur le doivent être considérés comme purement indicatifs et ne sauraient engager notre responsabilité. Toutes les éventuelles spécifications nécessaires devront faire l'objet d'une confirmation de notre part au moment de la commande et en tout état de cause avant la pose. La transformation de matières premières naturelles, alliée à l'application de technologies de production d'avant-garde brevetées, permet d'obtenir des matériaux capables de performances techniques élevées se distinguant par leurs caractéristiques pleines et typiques qui sont depuis toujours la prerogative exclusive des marbres et des pierres de carrière. Les variations chromatiques, les veines et les petits points sont donc des caractéristiques de grande valeur des matériaux FMG.
