

Hinged door frame and section.

Key Features

- Bottom rails can be extended in height by 85mm for a classic hinged/French door proportion
- Rebated meeting stiles give a flush appearance where French doors overlap and provide superior weathering
- Open-out and open-in frames available
- Flat-face frame for clean, contemporary look
- Wide stile option available
- French door flush bolts are concealed from view in the leading edge of the 'lazy' door panel
- Awning or casement sashes can be installed into hinged door panels
- A range of door handle and lock options are available, including multi-point locking.

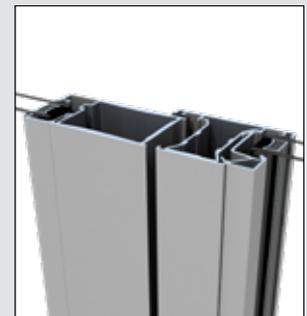

Bottom rail extender.

Parliament hinge for full opening.

French door meeting stiles.

Hinged door and sidelight.

Specifications

Dimensions

Recommended maximum panels of 2100mm high and 900mm wide

Maximum Glass Thickness

24mm IGU (22mm standard)

Thermal Values

U-value 6.350 R-value 0.168

Performance

Tested to Extra High wind zone

Design Considerations

- Single panels ideal as utility doors
- Open-in frame available for use in appropriate weather exposures, using a different frame
- Parliament hinges are available to allow a full 180° opening in brick veneer situations
- Overlights and sidelights are possible.
