

# Bi-fold Windows

Sill frame and panel.

## Key Features

- Bi-fold windows use the same system as bi-fold doors
- Ideal for wide openings
- A wide range of configurations available
- An in-frame track provides optimum panel support.

Open two-panel bi-fold - corner view.

Bi-fold window meeting stiles.

Bi-fold head section and fixed light above.

Urbo, Miro and Icon bi-fold handles.

## Specifications

### Dimensions

Recommended maximum panels of 1800mm high and 900mm wide

### Maximum Glass Thickness

27mm IGU

### Thermal Values

U-value 3.911 R-value 0.256

### Performance

Tested to Very High wind zone

## Design Considerations

- Careful consideration of bi-fold use is required when projecting on to decks or pedestrian areas
- Consider the ease of reaching to the bi-fold handle if the window is placed beyond a bench
- A good option for maximum views and ventilation when open, but needs to be monitored if windy conditions occur
- Free-swinging single panels not recommended.
