

BE-BT35

MACDONALD REST-EZY BACK REST 700

DESCRIPTION

The MacDonal Rest-Ezy Back Rests are ergonomically designed for strength and easy installation. The BE-BT35 is adjustable in length allowing it to be installed over a toilet that has a length between 700-750mm in accordance with NZS4121. These are commercial grade backrests that comply with the accessible bathroom requirements providing the necessary back support for disabled persons when using the toilet. With a polished stainless steel bar and white polyurethane padded support the BE-BT35 backrest allows the user to comfortably use a disabled length toilet pan when installed to the manufacturers instructions.

Suitable for all our RAK NZS4121 toilets, see separate literature.
