

AS0040

SURFACE MOUNTED JUMBO DOUBLE TOILET ROLL DISPENSER

DESCRIPTION

ASI AS0040 is a surface mounted double, jumbo (250 dia with a 76 or 57mm core) roll, toilet paper dispenser. Cabinet cover is fabricated in 1mm Type 304 satin finish stainless steel and is a one piece construction hung on stainless steel pivot hinges, held closed with a tumbler key lock, keyed to other ASI products.

Tissue dispenser mechanism is high impact, flame retardant ABS.

All exposed surfaces are protected with PVC film which is easily removed after installation.

Two viewing slots on the front cover allow immediate roll "run out" recognition. When one roll is depleted, other roll is selected by shifting panel lever at bottom of unit.

INSTALLATION

Mount using 5 x M6 x 24 Philips type pan head self tapping screws (by others) through mounting holes provided. Mount within 300 of the front of the toilet from centreline and 800 from FFL from bottom of unit.

For disabled compliance mount cabinet so that centreline of farthest of roll is no further than 915 back wall of toilet cubicle and centreline of rolls is between 500 - 1100 from FFL.

MODELS

AS0040 - Standard model as shown.
