

TRUE OAK®

DEEP

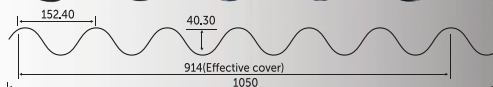

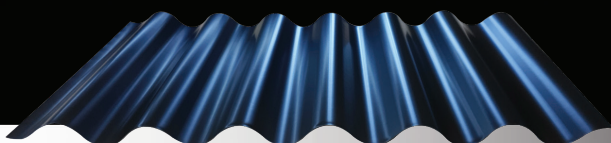

A return to the deeper corrugate

The good old days are back, better than ever.

Replicating and replacing the bolder fibre-cement roofing and cladding of yesteryear - but formed using the strength of our innovative manufacturing process - we are proud to announce the arrival of True Oak® Deep metal roofing and cladding. Our strong and visually striking range of True Oak® Deep products can be manufactured to length by Roofing Industries, and are available now.
