Product details

Small Arms Panels cover the ratings G0, G1, G2, or S0.

Ballistic Specification	Density of Armour Plate (kg/m2)	Weapon
G0	47	MK2Z, 9mm Parabellum
G1	47	357 Magnum
G2	63	44 Magnum
S0	47	12 gauge, SG Shell

Notes:

1. Panels can be manufactured to any practical size, please contact Pacific Doors

Attack Resistance

Attack resistance by means other than ballistic may be confirmed by separate tests to the client's requirements. Special bracing requirements may need to be confirmed by a Structural Engineer.

Service

Pacific Doors Systems Limited will site measure, factory cut, pre-drill, supply and install ballistic panels.

Public

Technical Compliance Statement

The Small Arms Panel is resistant to ballistic attack using conventional handgun or shotgun weaponry precisely tested to standard AS/NZS 2343 “Bullet Resistant Panels and elements.”

Panel centre layers are available tested to the following classes of the standard:

G0 MK2Z, 9mm Parabellum

G1 357 Magnum

G2 44 Magnum

S0 12 Gauge, SG Shell
