Premium design allows for quick and easy exterior
cleaning.

Hand Finished

Hand Finished Vitreous China.

Soft Close Seat

The Soft Close automatic closure system finally puts an
end to noisy closing WC seats. Just a fingertip touch and
the lid closes all by itself, gently and silently.

Overheight Toilet

With a pan and seat up to 40mm higher than standard toilets, the overheight toilet allows for easy transfer on and off the seat. This not only makes life easier as we increase in age, but is ideal for the elderly and those with restricted movement.

BTW Toilet Pan

The back to wall (BTW) toilet pan has an in-wall cistern and a fully concealed waste which hides exposed pipes. The back-to-wall pan runs all the way to the wall and is easy to clean with smooth, seamless lines.

The modern bathroom design is manifested as hard edged minimalism, but there is a noticeable significant shift toward something softer. Crisp outer edges combine with soft interiors to produce sleek solutions. Hard and soft combined, references the minimal hard edge with a soft flowing contemporary reference. Organic & sculptural.
