# Construction Tape

**Marshall Innovations Construction Tape is made with an acrylic adhesive, engineered to provide an aggressive bond. It won't lift or lose its grab due to mold or moisture. Plus, its high performance holds up across hot, cold, and humid conditions.**

When applied over the seams of the installed Wall Underlay it results in the continuity of the Wall Underlay and assists in creating an effective drainage plane. Construction Tape can also be used to repair small rips, punctures or tears in wall underlays.

## Leading features and benefits

**Easy-to-handle with enhanced performance and durability.**

- Allows for application down to -6°C
- Ideal for joining underlays
- UV and weather-resistant
- Easy tear

### Roll Sizes

50.8mmx50m

**Disclaimer** - Always check for compatibility.
