Showerline Wetwall Lining

What is Showerline Wetwall Lining?

IBS Showerline is a popular wet wall lining panel that brings together the strength and durability of an aluminium composite panel as well as a smooth and stylish curtain coated paint finish.

IBS Showerline is the ideal choice for all wet wall lining requirements. It is impact resistant and has a soft white curtain coated finish that is easy to keep clean. This will mean that your wet or utility area will stay looking great for many years to come.

Importantly it is simple to install. Due to the nature of the product, IBS Showerline can be directly fixed to framing as well as fixed over the top of most other substrates.

Showerline is an aluminium composite panel comprising a PE (polyethylene) core sandwiched between layers of 0.4 mm aluminium, finished with a Polyvinylidene fluoride (PVDF) coating. It is supplied with a protective coating that is removed after installation.

It is easy to clean with a simple solution of 5% detergent and warm water. Avoid using steel wool or abrasive cleaning product as well as cream type cleaners.

The Showerline Wetwall Lining:

- ✓ Impact-resistant
- ✓ Beautiful consistent colour with a curtain coated finish
- ✓ Aluminium face and back means that it will not rot
- ✓ Surface protection plastic film on the face
- ✓ Easy to cut and install

IBS supplies Showerline Wetwall Lining (Showerline) for use in:

- ✓ bathrooms
- ✓ kitchens
- ✓ laundries
- ✓ food preparation areas
- ✓ any other areas where easy clean-up is required
