RECOMMENDED CLEANING PROCEDURES

Durastone™ Vanity Tops

To clean Durastone™ vanity surfaces use non abrasive soap and water. It is recommended that the product surface is wiped dry after each use to prevent the build up of soap and scum. In the event of light scratches in the surface of the top, a mild abrasive such as "Meguiars Mirror Glaze 28 All Metal Polish" can be used to polish them out.

Vanity Cabinet

The materials used in the vanity cabinet are water resistant only, not water proof. Care must be taken to clean up all water spillage onto the vanity cabinet surfaces. To maintain the finish on your vanity cabinet clean with mild soapy water and dry with a soft cloth.

CAUTION
