UNEX
ARCHITECTURAL BARRIERS

UNEX **SAFA-SLAT**

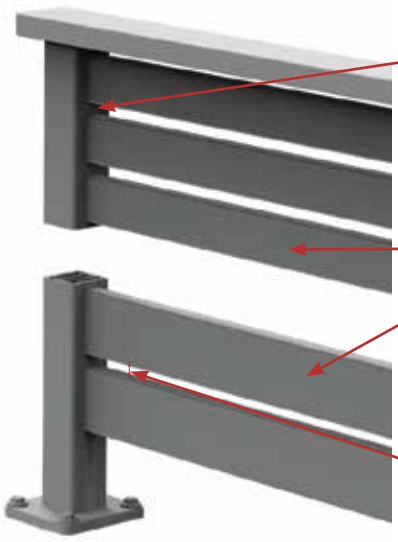

Privacy, protection, performance.

More than just a pre-engineered, compliant safety barrier, the Safa-Slat Balustrade doubles as a versatile privacy and screening solution. Perfect for close-quarter living, unit or apartment balconies, and decks, it conceals unsightly services while providing wind protection and enhanced security. Its high-performing design makes it ideal for creating discreet outdoor spaces or extending functional areas around your home.

Log in to the UNEX Tech Portal on our website to access BIM-ready Revit files, DWG drawings, and EziSpec - our easy-to-use PS1 generator that simplifies the consenting process.

General Arrangement

The slats attach to the aluminium infill and this infill slides into the recess of the post.

Slats Available In **Two** Sizes:

Safa-Slat **50x16mm**

Structa-Slat **70x19mm** specially designed for larger spans and higher loadings.

The gap between the slats must not exceed 14mm to comply with section F4 of the NZ building code.

Key Features

- Top or face fixed to timber, concrete or steel with a range of top rails to choose from.
- Designed with concealed assembly fasteners, simple clean lines, tidy joints with no welds.
- 316 stainless steel fittings.
- Optional offset baseplate or DKG2 (gutter) brackets available.
- Full CAD details and producer documentation available for specifiers.
- Downloadable pre-engineered Producer Statements (PS1s) for standard heights up to 1200mm from finished deck level, with expert advice available for more bespoke applications.
- Safa-Slat is ideal for applications such as privacy screens, patio and landscape screens, standard height balustrades and can be used in combination with other UNEX styles.

Colours

Aluminium can be powdercoated to a colour of your choice. A wide range of exterior powdercoat finishes are available. Duralloy or equivalent is the standard finish supplied, unless stated otherwise, which provides excellent resistance to weather and salt spray.

Warranty

Material supplied by UNEX has a warranty period of 10 Years*.

Typically, the powdercoat colours have a 15 Year durability and 15 Year colour warranty* but can very depending which colour is chosen.

*(*Subject to terms & conditions, care, & maintenance.)*
