

Quadra Sparkling Plus

The Billi Sparkling Plus system is the ultimate drinking water appliance which delivers boiling, chilled and professional sparkling filtered water instantly, plus supplies hot/cold to a sink mixer. It delivers the following benefits:

- Adjustable chilled temperature
- No cupboard ventilation required
- Adjustable carbonation
- High capacity CO² cylinders for longer life
- Italian carbonation – saturation technology as used by leading Cola brands.
- Flexible installation configurations
- Compact under bench units
- SplashFree boiling water delivery

The Billi Quadra Sparkling Plus incorporates its own hot water service all in the two small underbench units.

The Quadra Sparkling Plus unit has a boiling water reserve to ensure you will always have boiling water after the hot water supply through the mixer tap is fully drawn.

- **Billi Quadra Sparkling Plus**
