

Simply spread out & lay boards!

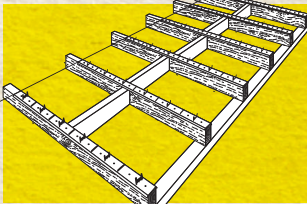

Spread Out & Lay Boards

Protect the Joist

Consistently Straight

Fast and Simple

Introducing DECKTEC, a new and unique deck board spacing system that...

- Speeds up decking installation, saving labour and \$\$\$
- Quick initial set out
- Allows multiple teams to lay a deck starting from opposite sides of the deck, saving a heap of time
- Perfect decking board alignment for making straight boards
- No need for progressive checking and straightening boards, I like it!
- Easy to identify joist positioning for straight screw lines
- Easier to build around objects
- Perfect spacings between boards
- Allows for board expansion/contraction
- Extends the life of joists as DECKTEC protects the joist from weather and dirt

Perfect decks, twice as fast

Manufactured to the highest quality, Decktec Decking System is available in Cartons (Box of 24) or convenient 6 Packs, meaning whatever the project, large or small, Decktec has your next job sorted.

Each carton includes 80 x 25mm clouts & 20 x weather proof joining pads. Each 6 pack includes 20 x 25mm clouts & 6 x weather proof joining pads.

DECKTEC™

A world first in decking

A Deck Spacer System & Joist Protector in One

Suitable for all natural timbers

Created by builders for builders

Decktec is an innovative new system for laying decking boards in half the time when compared to conventional deck laying.

Decktec is not only a decking system, but also completely protects the joist.

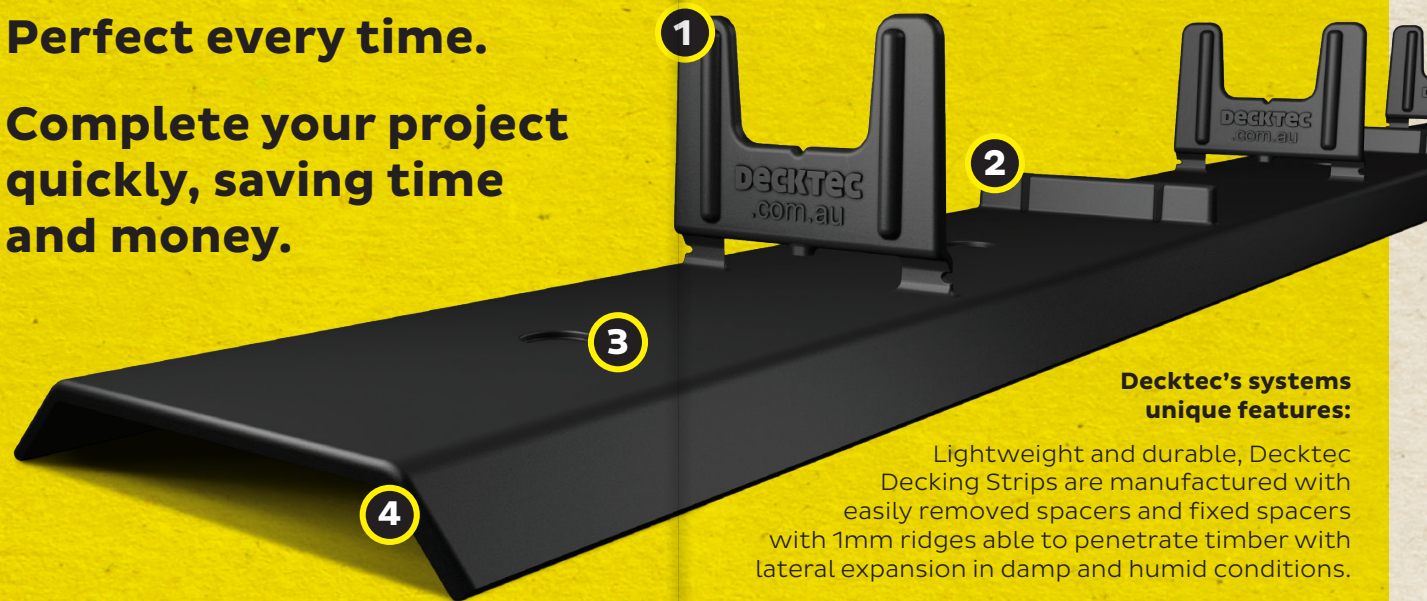

Manufactured with both fixed and removable spacers, it's fast, easy to set out and suitable for all-natural timbers.

Decktec not only allows you to lay out boards wherever you like, it allows for expansion and progressively straightens every board.

Decktec uses 100% recycled polypropylene.

Perfect every time.

Complete your project quickly, saving time and money.

Decktec's systems unique features:

Lightweight and durable, Decktec Decking Strips are manufactured with easily removed spacers and fixed spacers with 1mm ridges able to penetrate timber with lateral expansion in damp and humid conditions.

1. Removable Spacer *

- Lay boards either side in pairs for a perfect deck
- Offset spacers will compress with oversize boards
- Open centres for string line or laser
- Easily removed on completion

2. Fixed Spacer *

- 1mm triangular ridges allow for lateral timber expansion
- Tested to 1200KPa
- Holds bowed boards and maintains straightness

3. Recessed Fixing Points

- Clouts finish flush
- Will not foul decking screws

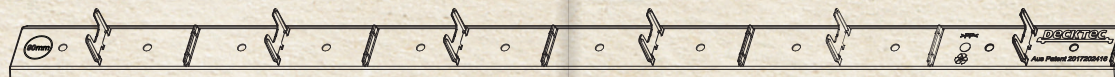

4. Winged Edges

- Deflects water & grime
- Protects the joist

*Spacers are 5mm thick for 86mm & 90mm strips; 6mm thick for 140mm

Available in 2 Sizes:

90
mm

Cartons (24 Pack) cover 27.36 L/M • 6 Pack cover 6.84 L/M • 1140mm long • Suits up to 50mm joists

140
mm

Cartons (24 Pack) cover 28.03 L/M • 6 Pack cover 7.008 L/M • 1168mm long • Suits up to 50mm joists

Environmentally Friendly

Decktec is manufactured using 100% recycled material, conserving natural resources, landfill space and energy

UV Stabilised

Decktec Decking System is protected from direct sunlight when in use, extending the life of deck and protecting your asset
