Resene ______Construction Systems

XTHERM[™] Blue Insulated Facade System

The contemporary, durable and energy efficient choice for your project.

XTHERM™ blue provides complete external thermal 'out'sulation whilst protecting the structure and those inside from what mother nature throws at it.

Thermal insulation is one of the most important decisions made in achieving an energy efficient and sustainable project.

Proven Technology

The XTHERM™ blue insulated plaster facade system incorporates our exclusive 50mm thick XTHERM™ blue ultra high density, fire retardant extruded insulation panels, providing far greater thermal insulation and hardness than traditional standard grade EPS (expanded polystyrene). The System is fixed over a 20mm cavity on timber or steel framing creating an unbroken layer of 'out'sulation which we consider to be the most efficient method to keep the warmth in and the cold out.

XTHERM™ blue is a complete system incorporating our full flashing suite, lamina of hand applied modified plaster coatings, full surface fibreglass reinforcement, styled with your choice of textures from ROCKCOTE or Plaster Systems all finished with Resene protective coatings in your favourite Resene colours.

Attractive and Durable

XTHERM™ blue System carries our 15 year System Performance Guarantee, and 5 year Workmanship Warranty from the LBP Registered Plasterer. The XTHERM™ blue system includes our exclusive OnSite Quality Assurance programme providing surety of performance from installation through to the finish.

Innovative design.
Integrated systems.
Enduring finish.

System Features

- + XTHERM[™] blue Insulation thickness - 50mm
- + Extra High density / 35kg/m3
- + Complete thermal envelope
- + Breathable system
- + Hand Plastered
- + Fibreglass reinforced
- Professional Registered LBP supply & install
- + Performance Guarantee
- Patented EdgeSeal window flashing suite
- + 'Genuine' Resene Colour Range
- + OnSite Quality Assurance

- 1 Cavity Battens
- 2 XTHERM™ Blue 'Out'sulation
- 3 Base Plaster
- 4 Fibreglass Reinforcing
- 5 Levelling Plaster
- 6 Resene Limelock
- 7 Texture Style
- 8 Resene X200
