

Want to clean the drawer or interior organisation system? No problem! ArciTech drawer system

Drawer removal

Drawer installation

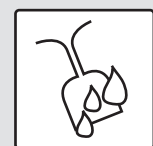

Front panel disassembly

Front panel assembly

- Drawer removal: open all the way, pull straight up by handle or front panel
- Drawer installation: place on the runners, push in straight, close with a hard push
- Front panel disassembly: pull release levers forward in both drawer side profiles, remove front panel
- Front panel assembly: fit back into the drawer front connectors, keeping parallel
- Products for cleaning drawers and interior organisation systems:
 - Soft, non-linting cloth and a water-soluble, mild cleaning agent, such as liquid or neutral soap – recommended as best in the product information for your kitchen furniture
 - Do not use any abrasive cleaners/sponge scourers, paint thinners or irritant/corrosive chemicals as they may damage the surfaces over the long term
 - In general, stains should be removed as quickly as possible to prevent them from working into the surfaces

Plastic interior organisation systems: Dishwasher safe
