

## Plytech Eurolite HPL

*Plytech Eurolite HPL is a light-weight plywood finished on both faces with a high pressure laminate (HPL). Eurolite HPL offers a durable decorative surface suitable for use in furniture and joinery, marine & motorhome interiors, or any application where weight saving is a priority. Eurolite HPL White is also available in 19mm with a 13ply multi-ply edge detail.*

### Applications:

Furniture and joinery. Marine interiors.  
RV and transport industry.

### Features:

Eurolite HPL is finished in 0.6mm thick high pressure laminate featuring a fine embossed texture. HPL consists of multiple layers of resin impregnated paper overlays with a decorative surface layer bonded together under high heat and pressure.

White HPL
11mm, 13mm, 16mm, 19mm/9ply, 19mm/13ply, 25mm
Maple HPL
16mm, 19mm/9ply

### Handling and Storage:

Plywood is a natural product that can be affected by changes in ambient weather conditions, causing previously flat sheets to bow or twist. All precautions are taken to minimise this effect, however once the plywood has left our warehouse we cannot guarantee sheets to remain flat. This is particularly important where free standing kitchen/ cabinet doors are concerned.
