tepromark[®] 

architectural wall protection

corner guards | crash & handrails | wall sheet

We've got you covered

From concept to closeout, Tepromark focuses on the needs of healthcare, hospitality and educational interior wall surfaces. Our experienced team is ready with the information, tools and products necessary to find the best solution for your facility.

The Tepromark brand has global recognition in the manufacture and supply of commercial wall protection and associated products.

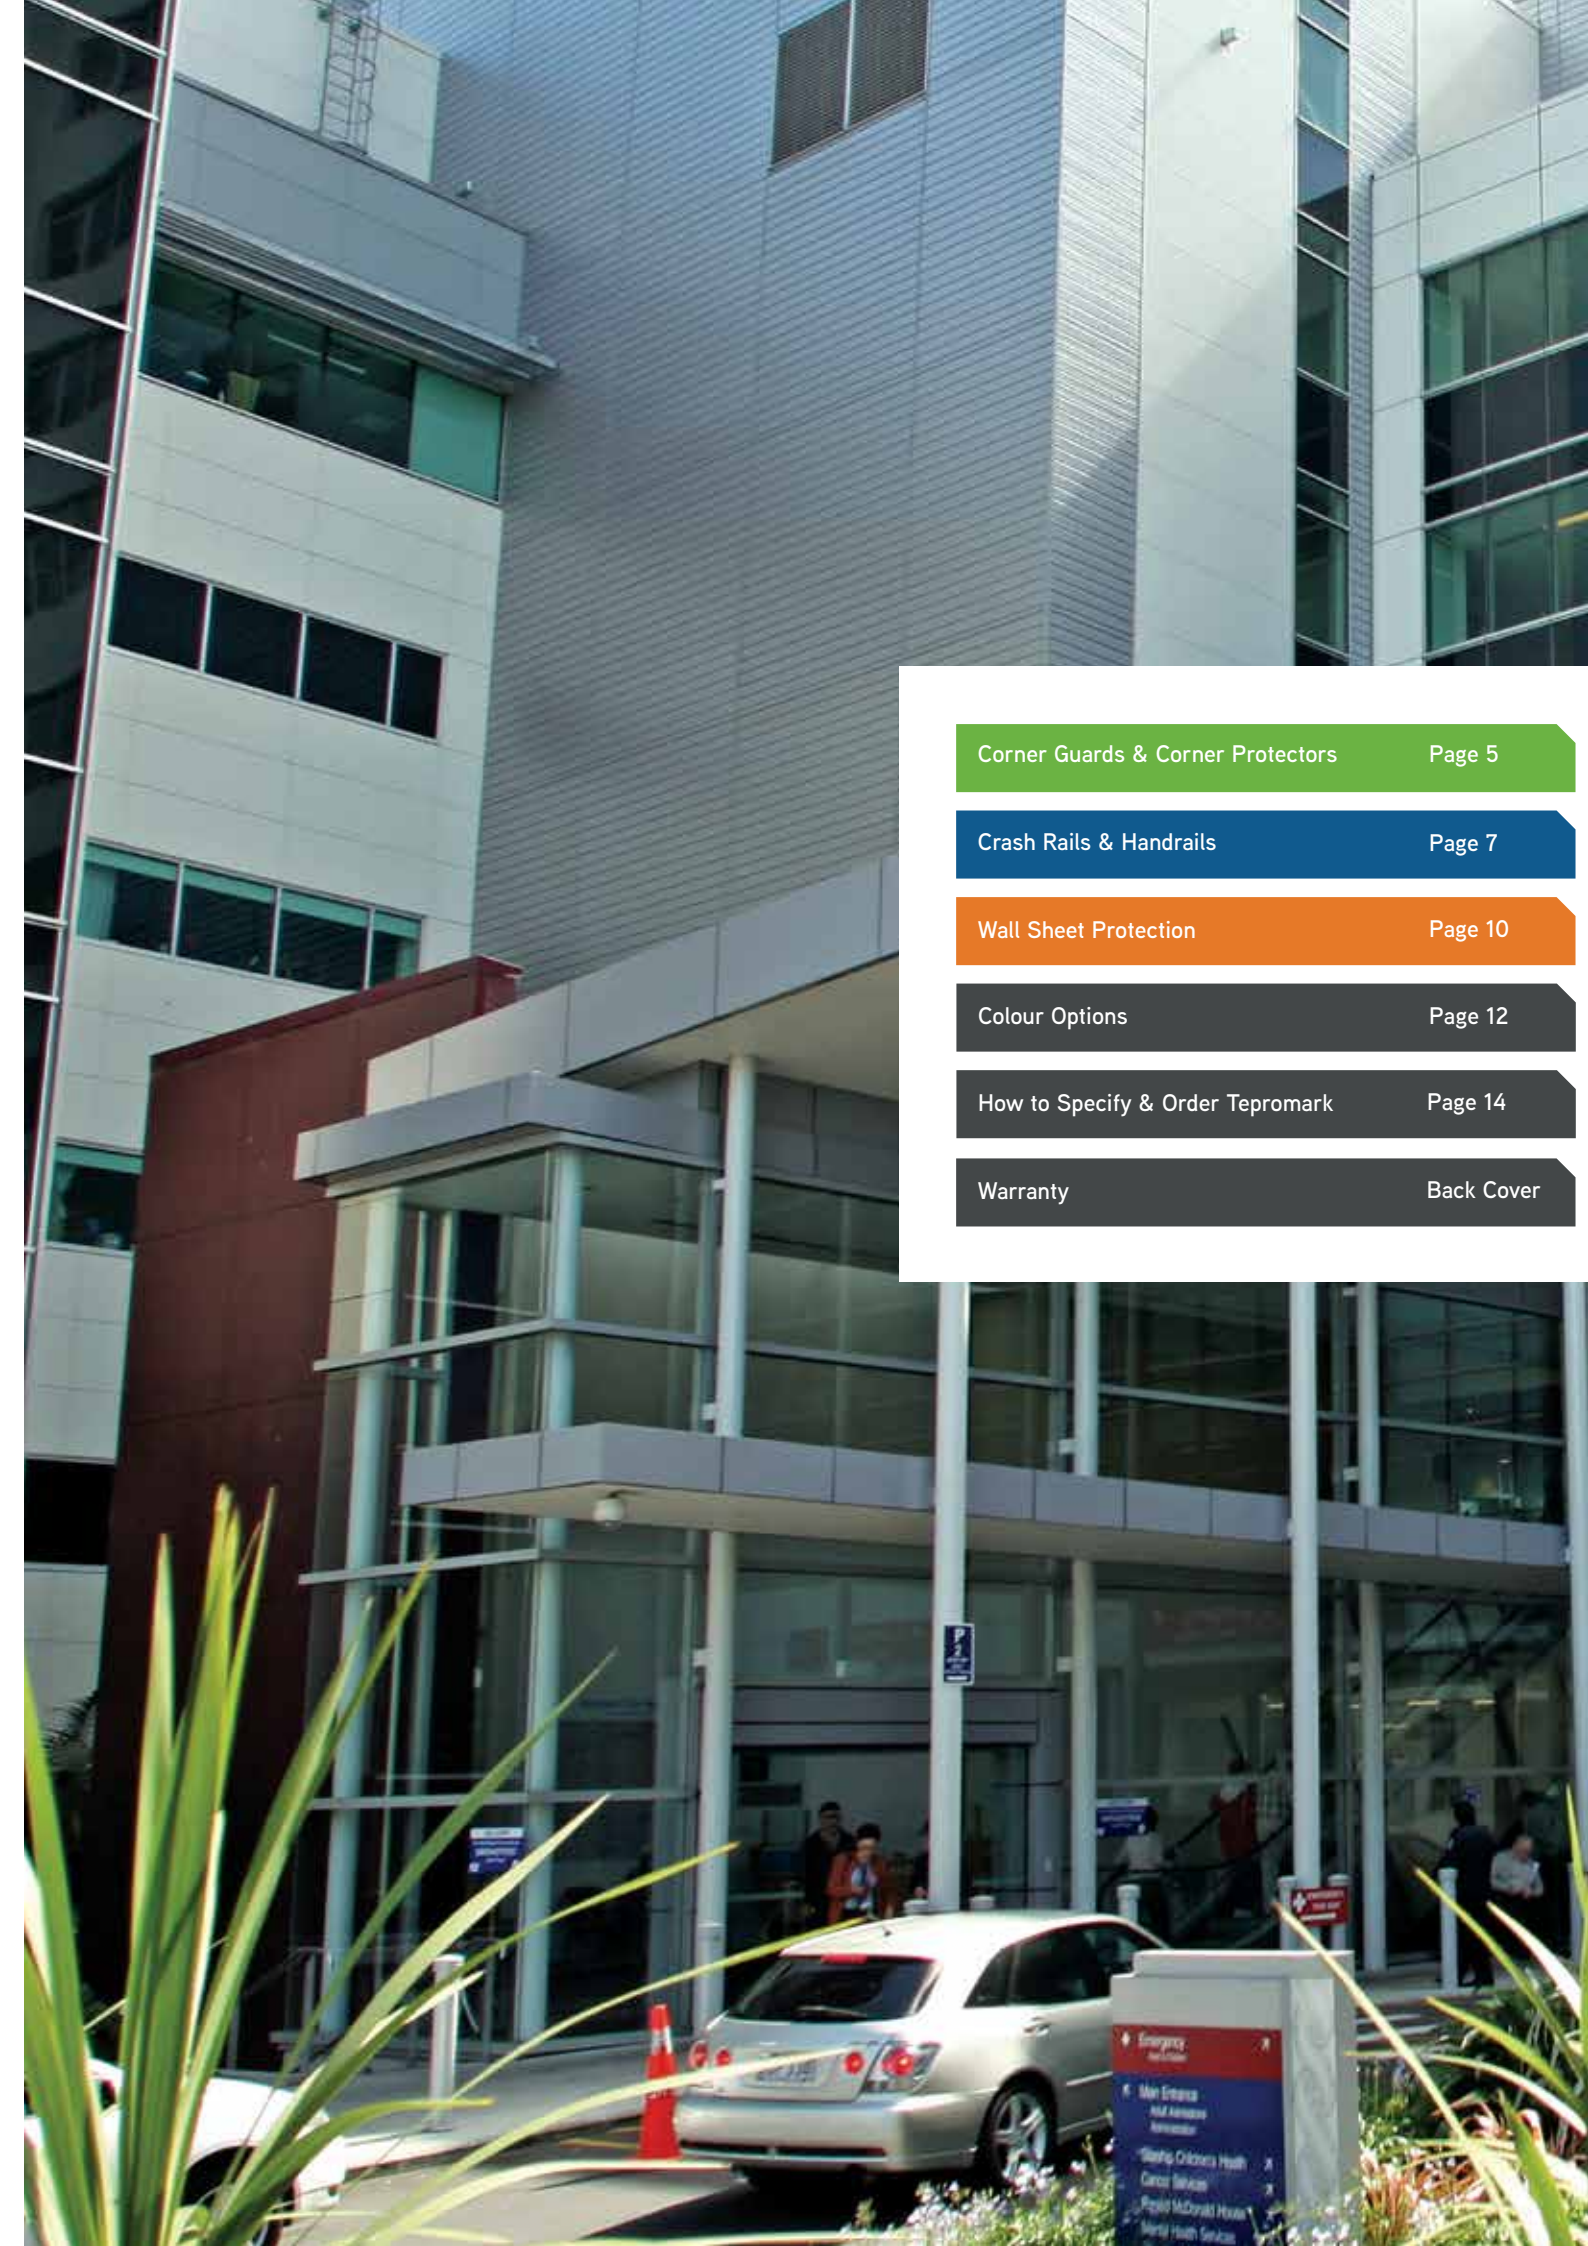

Tepromark more than meets the industry-specific needs of today. From updated profiles and a fresh colour palette, to simplifying specification and installation, Tepromark offers the product and experienced service that inherently has you covered.

ZONE supply and distribute the Tepromark brand of wall protection in New Zealand and have over 10 years experience of successful supply and installation project history. Zone stock a range of bumper profiles, and flat wall protection sheet in a range of popular colours, which is distributed from our Auckland warehouse.

Our team offer a specification service and can arrange installation across the country. If we don't have the colour you want in stock, we can source that for you. Zone can assist with custom colour matching.

Call us to discuss your requirements.

Crash Rails, Handrails, Bed Bumpers

Our high impact crash rails provide superior protection from damage and wear caused by moving objects such as wheeling beds and trolleys. The textured cover snaps on an aluminium retainer which absorbs the impact through its excellent tensile strength and yield. The covers are hard-wearing, scratch resistant and can be cut to length as required.

Crash Rails / Bed Bumpers

Kit includes; continuous aluminium retainer, high impact corners, impact absorbers

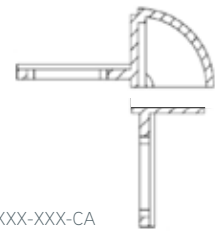

Code	(H) Height	D (Depth)	Description	Length	Stock NZ	Colour	O (Offset)

tepromark® 

wall protection

How to Specify and Order Tepromark

Tepromark can be specified using our Masterspec work section 5152ZT. A link to this can also be found on our website www.zone.net.nz. The product codes have been written throughout the catalogue. Where XXX appears, this may be a colour requirement or length.

All colours have codes and names. Please refer to page 12 of the catalogue. These can also be found on our website.

Deciphering the Product Codes

Key:

- T = Tepromark
- WS = Wall Sheet
- CG = Corner Guard
- CP = Corner Protectors
- CR = Crash Rails
- BG = Bed Bumpers (Bumper Guards)
- HR = Hand Rails

It is easy to specify or order Tepromark as a KIT which comes with the necessary components for installation.

Not all components are KITS. We have detailed a list of spare parts which can be ordered separately.

Installation Service

Zone supplies or can arrange a supply and install service of Tepromark using our experienced installers. Please ask your Zone salesperson for further information.

tepromark® 

wall protection

Limited Warranty

ZONE will repair or replace Tepromark wall protection products that are defective in workmanship or material quality based on the schedule below. Liability under this warranty is limited to materials only, not including installation costs involved in the repair and/or replacement process. Zone Architectural Products waives responsibility for incidental or consequential damage of any nature. Any repair work or alteration of the product not done under supervision, or subject to the approval of Tepromark, shall void any liability under this limited warranty.
