DEKTON  
**ONIRIKA**

Designed by Nina Magon

A collection that unites the poetic and unique beauty of stones harnessed by Dekton® technology, as those dreams where we observe and vaguely feel in control but only the deepest part of our mind truly understands.

The collection is named in honor of the lavish inspiration of the two worlds conveyed in marbled colours to captivate our eyes and bring to any space a feeling we understand but cannot explain.

Worktop & Backsplash: Dekton Umber  
Table Cover: Dekton Umber  
Floor: Dekton Argentium

# Dekton is a sophisticated mixture of more than 20 minerals extracted from nature.

Dekton® emulates in a few hours what takes nature thousands of years, through an exclusive technological process.

Dekton® uses in its manufacturing the exclusive TSP technology, able to sinter mineral particles making them bond with each other, change and compact their internal structure. A unique and innovative technological process that represents an accelerated version of the metamorphic changes that natural stone undergoes when exposed for millennia to high pressure and high temperature.

As a result of its exclusive sintering and ultracompaction process, Dekton® has a near to zero porosity, which generates a surface with no micro-defects that could cause tensions or weak points, setting it apart from other materials.

# Dekton features

## Large Format

Thanks to the size (up to 3200 x 1440 mm)\* and the lightness of Dekton® (from 4 mm thick)\*\*, the design possibilities for your kitchen, bathroom, facade, walls or high transit floors are growing exponentially.

**Slab Format**  
up to 3300 x 1500 mm

**Available thicknesses**  
4, 8, 12, 20 and 30\* mm

## Great resistance

Extremely resistant to scratching, virtually zero porosity and highly resistant to aggressive chemical products used in kitchens and bathrooms.

## Relentless in heat

Extreme resistance to high temperatures, cookware fresh off the hotplate and UV rays.

## Unlimited inspiration

Design your modern kitchen with eye-catching colours and unique textures. Large format for new compositional solutions.

## A worktop to be enjoyed

Easy maintenance, no traces of fingerprints or marks and maximum durability. Your Dekton worktop is guaranteed for 25 years.

—  
\* \* Check availability of 4 mm thickness, only suitable for cladding.

\* Check availability of 30 mm thickness.

## Dekton® XGloss Advantages

A luminous and dazzling finish achieved by mechanical polishing, without the need for enamels or other materials.

# Kitchen worktops

**Dekton® is a long-term product for those looking to turn their kitchen into a unique space. Firstly, because it allows you to have installation in one piece with fewer cuts and joints, no limits just the appeal of a completely uniform surface, which fits seamlessly into very different design styles.**

Dekton® combines the qualities desired by the chef in all of us. It is a clean surface that is nice to touch and resistant to the daily grind that takes place in a kitchen over years of use. An ultra-sophisticated material for busy everyday life, capable of creating spaces that make the preparing of food, day after day, a pleasant experience that precedes the pleasure of sharing a meal with friends or family.

It represents beauty and solidity with easy, fuss-free cleaning. The structural density of Dekton® is a breakthrough in engineering, but what really matters is that we do not have to worry about scratches, stains or traces of heat. A simple wipe with a cloth and presto, because the kitchen should be enjoyed with no restrictions, this is the Dekton® way of thinking.

# Optimma format

New optimized Dekton® format. The ultimate interior cladding solution.

The Dekton® slab has been optimized with its most common applications in mind to create a new format with improved cost, design, installation and handling. Introducing our first Optimma family format specifically for cladding:

260 × 100 cm  
in 4 mm thickness

The slabs are created in 4mm thickness, which gives it a lightness that allows easy handling, and in case of need, it can be easily cut to adapt the product to all spaces.

# New optimized Dekton® format. The ultimate interior cladding solution.

## Cost Efficiency

The sizes were optimized to the most common coating standards, this allows us to avoid waste, which in turn reduces price.

## Design with Purpose

The board has been created to take advantage of its total height, which makes it much easier to cut it for cladding.

## Easy to Install

The product is smaller and lighter, which makes it easier to use, transport and handle. Cutting can be done with simple tools. The edges are already bevelled and the piece is always meshed.

## Design Match

The design has been conceived to place the boards vertically to create a continuous design.

Bathroom Worktop: Dekton X-Gloss (20 mm) Halo  
Furniture Covering: Dekton Slim (4 mm) Kreta  
Floor: Dekton Kreta (12 mm)

# Bathroom wall claddings and worktops

Minimum maintenance.  
Great beauty and resistance.

The bathroom is the space in the home, where hygiene and harmony need to express themselves in the best possible way. A peaceful environment devoted to personal care and hygiene - a space to relax and unwind free of any worries.

Dekton®, thanks to its low porosity, is completely waterproof against liquids. Water glides smoothly over the surface without ever penetrating. This, along with unchanging beauty, results in extremely easy cleaning.

Their textures and colours are an endless source of inspiration for the design of water-related areas, we're talking about Dekton®, its possibilities are endless.

Wall Covering and floor: Dekton Neural and Dekton Somnia  
Bathroom Countertop: Dekton Neural

Bathroom Worktop: Dekton Halo  
Wall Covering: Dekton Slim (4mm) Zenith  
Furniture Covering: Dekton Slim (4mm) Kreta

# Bathroom coating Dekton Slim 4mm

The most ultra-thin surface on the market.  
Simply revolutionary.

4mm thickness in large format that offers unlimited design options and incredible ease of installation and transportation. Ideal for bathroom and kitchen walls, as well as all types of furniture.

Bathroom Worktop: Dekton Kreta  
Wall Covering: Dekton Slim (4mm) Kreta  
Furniture Covering: Dekton Slim (4mm) Sirius

# Dekton Slim with our X-Gloss finish is the thinnest and most lightweight polished material available on the market

Slim Thickness  
Huge Format & Performance

It boasts highly technical features making it very resistant, yet also lightweight, very easy to handle and install, and perfect for both inside and outside spaces.

## Dekton X-Gloss

Dekton Slim with our X-Gloss finish is the thinnest and most lightweight polished material available on the market. It boasts highly technical features making it very resistant, yet also lightweight, very easy to handle and install, and perfect for both inside and outside spaces.

## Mirror Effect

Cosentino's vast experience and expertise in treating and polishing natural stone over generations has enabled us to create a completely smooth surface with an almost entirely clear reflection.

## Damp-proof Surface

It is highly resistant to stubborn stains, thanks to our X-Gloss nanotechnology that is unique to the market, and also boasts water-repellent properties.

Dekton Slim X-gloss must have a mesh on the back to guarantee stability and protection against the manufacturing and installation procedures.

Wall Covering and countertop: Dekton Daze  
Floor: Dekton Micron

# Outdoor kitchen covering

Cook with the sky as a roof

Cooking is definitely a pleasurable experience and doing it outdoors, usually results in a small social event. Everyday celebrations that we can enjoy with company around a grill. Dekton®, due to its ultra-compact structure, is particularly suitable for installations for outdoor kitchens and barbecues.

Dekton® provides strength and style to these spaces, it gives them an undeniable personality and unlimited practicality. Stains, bumps, utensils at high temperature... Dekton® will resist the demanding use over time while maintaining its unchanging beauty.

It is not affected by ice, sun, sleet, or wind either. When bad weather arrives, Dekton® simply needs an effortless, fuss-free cleaning so that it can showcase its best again.

Wall Covering and countertop:  
Dekton Daze

Table and furniture: Dekton Lucid\*  
Floor: Dekton Nacre

\*Dekton Lucid (polished) is an indent colour for the Australian and New Zealand market. Please refer to colour, Dekton Morpheus (velvet) as the portfolio colour for these markets.

# Furniture cover Dekton

Turn the furniture of your home into surfaces of great beauty and strength with Dekton® and Dekton Slim® 4mm.

Dekton® Slim allows you to give furniture never seen before benefits: tables that resist everything, doors that do not scratch or stain.

The design possibilities are unlimited thanks to its custom cut and easy installation.

Check availability of Dekton® Slim colours. Dekton® Slim is not suitable for kitchen countertops cladding.

# The only full life-cycle Carbon Neutral Surface

Sustainable development is an essential component of the company's growth strategy, with special regard to the respect and protection of the environment.

A CARBON NEUTRAL PRODUCT

COSENTINO®

# 1. We reduce our impact

We are committed to energy efficiency, emissions reduction and sustainable mobility to minimize our impact.

## Energy Efficiency

It is a priority objective for Cosentino to reduce energy consumption in the production process and in the general group activity. In addition, 100% of the electricity we use in the production process comes from renewable sources.

## Emission Reduction

2.8 million euros have been invested in the implementation of an energy management and monitoring system for the heat systems which allows heat from the Dekton furnaces to be recovered and used in the dryers, thus reducing emissions.

## Sustainable Mobility

We have recently joined the “Plan Sumamos Salud + Economía” under which we have a Mobility Policy that helped us to avoid 1.255 TCO<sub>2</sub> in 2019.

## 2. We calculate our carbon footprint

As part of our de-carbonization Plan, our carbon footprint is calculated and verified by an accredited third-party organizations.

With the approval of MITERD (Spanish Ministry for Ecological Transition and Demographic Challenge), it is part of the Spanish Registry of Carbon Footprint, Off setting and CO<sub>2</sub> Absorption Projects of the OECC (Spanish Office of Climate Change).

For this calculation, we use data on energy and or fuel consumption, raw materials, etc., of the entire value chain and of the Cosentino Group branches (Centres, Workshops, Cities, HUBs, HQ,...).

## 3. We offset our emissions

To achieve carbon neutrality in Dekton, at Cosentino we offset our emissions over the entire product life cycle (scopes 1+2+3) by investing in GHG emission offsetting projects.

For this purpose, we identify those projects that meet the requirements for responsible offsetting and that, in turn, have a strong social dimension that contributes to the achievement of the Sustainable Development Goals of the UN's 2030 Agenda.

The project selected to offset the 42,532 tons of CO<sub>2</sub> emissions resulting from one year of Dekton production was the “Loma Los Colorados Land II Gas Project” in Chile, which has a direct impact on sustainable development by supporting the local economy, providing training and job opportunities.
