

HERRINGBONE

COMMERCIAL

Featuring  ISOCORE Technology®

A Enhanced Ceramic Bead Overlay treated with Ultra-Fresh™
Microscopic ceramic particle suspended in a UV cured urethane coating for superior wear & stain resistance and easy care & maintenance. Ultra-Fresh™ treatment inhibits the growth of odour and stain causing mould and mildew.

B Clear Vinyl Wear Layer – 0.55mm
Transparent vinyl wear layer provides significant durability against scuffs and abrasions in commercial applications.

C High-Resolution Printed Decorative Film
High resolution printed film with natural wood grains selected for the herringbone pattern.

D Solid Vinyl Top Layer – 2.0mm
Multiple layers of solid virgin vinyl enhances durability, provides resistance against dents & chips, facilitates authentic embossing and improved comfort under foot.

E ISOCORE Technology™ – 5.0mm
A highly-engineered, structural, grey core made from extruded, closed-cell vinyl, ISOCORE Technology™ is 100% waterproof, rigid, light, strong, and dimensionally stable.

F Easy Drop & Lock Installation
Innovative DropLock 400 installation system enables fast and easy to install in either single or double herringbone.

G Integrated Sound Mitigating Underlay
An integrated 1mm underlay reduces both reflected and transmitted sound, provides warmth and comfort underfoot and helps conceal substrate imperfections. Ultra-Fresh™ treated.
