

Metroflor® is not just the name of an HMTX Industries company, but the essence of revolution in resilient flooring. As the leader in sustainability and transparency, we are engaging in collaborative partnerships that result in healthy, high-performing and biophilically-designed products. Disruptive intelligence dictates our culture. We are answering the need to educate, motivate, and encourage individuals to invest in a restorative ecosystem.

The future starts with all of us.

FloorScore®	Certificate #SCS-FS-01967 Available at metroflorusa.com	PHTHALATES	Phthalate-Free
CALIFORNIA PROP 65	Compliant	FORMALDEHYDE	Formaldehyde-Free
CDPH v1.2 - 2017	Compliant	FLAME RETARDANTS	None
REACH SVHC	Compliant (REACH SVHC 181)		

**PRODUCT SAFETY & TRANSPARENCY**

Metroflor’s product testing program is remarkably stringent. Metroflor products are tested to the latest standards for Volatile Organic Compounds (VOCs), formaldehyde, phthalates, and heavy metals. In fact, the standards used for the testing of phthalates and heavy metals in Engage Genesis® are the same standards used for the testing of children’s toys, setting a very high bar. Engage Genesis has surpassed that bar – and we welcome you to inspect our HPDs and Declare Labels to your satisfaction. Equally important is the fact that Engage Genesis is FloorScore certified, thus ensuring it meets strict standards for indoor air quality.

By selecting Metroflor, you have made the choice for safe and sustainable products. And isn’t that what we all want when it comes to products in our businesses and homes? Come join us at Metroflor and discover all of the possibilities of resilient flooring.

**AFFILIATIONS**

Engage Genesis 2000 - Dutch Elm

**THE WELL BUILDING STANDARD v2 - POTENTIAL CONTRIBUTIONS TOWARDS CERTIFICATION**

CONCEPT	FEATURE	PART	COMMENTS
Materials	X01 - Fundamental Material Precautions	1(c): Restrict Asbestos	Engage Genesis does not contain asbestos and thus complies with this prerequisite for resilient floor coverings.
		3(b): Restrict Lead	Engage Genesis includes a finish (coating) that is lead-free and thus complies with this prerequisite for surface coatings.
	X10 - Volatile Compound Reduction	1(a): Manage Volatile Organic Compounds	No flame retardants (halogenated or otherwise) are added to Engage Genesis during the manufacturing process.
		2(a): Manage Semi-Volatile Organic Compounds (SVOCs)	Engage Genesis is made with DOTP (Diocetyl Terephthalate), a non-phthalate plasticizer.
	X11 - Long-Term Emission Control	2(a): Manage Flooring and Insulation Emissions	Engage Genesis is FloorScore Certified and thus meets the requirements of CDPH Standard Method v1.2-2017.
X14 - Material Transparency	1(a)(b): Promote Ingredient Disclosure - Material Information	Material ingredients for Engage Genesis have been disclosed in the form of Declare Labels and Health Product Declarations (HPD).	

**LEED v4.1 - POTENTIAL CONTRIBUTIONS TOWARDS CERTIFICATION**

CATEGORY	PREREQ/CREDIT	DESCRIPTION	COMMENTS
Material & Resources	MR Credit	Building Product Disclosure and Optimization - Material Ingredients (Option 1)	Material ingredients for Engage Genesis have been disclosed in the form of Declare Labels and Health Product Declarations (HPD).
Indoor Environmental Quality	EQ Credit	Low-Emitting Materials: Flooring	Engage Genesis is FloorScore Certified and thus meets the requirements of CDPH Standard Method v1.2-2017.
