

# CTRL DELTA WIRELESS CONTROL

Delta Light® introduces **CTRL DELTA**, enabling you to control and manage a selection of LED luminaires via mobile devices (Apple or Android). In essence, all dimmable luminaires can be wireless controlled, as long as the required components are either integrated or installed externally. Throughout Lighting Bible 12®, the symbols below show if wireless control is possible with the luminaire in question.

**CTRL DELTA INSIDE**  
Wireless control is standard and the luminaire has the required component integrated.

**CTRL DELTA READY**  
Luminaire can be wireless controlled, but requires an external component. In order to ensure the best interaction, this component needs to be installed nearby the luminaire. Installation options need to be checked according to the nature of the luminaire and the installation possibilities.

**CTRL DELTA CUSTOM**  
Wireless control for this particular luminaire is on demand and needs to be checked by Delta Light®.

**Easy to install.** You don't need any new wiring, switches, devices or networks. Plug in the lighting fixture and pair it with your smartphone or tablet. No other configurations needed.

**Easy to use.** You can control your lights with an intuitive and visual user interface on your smartphone or tablet.

**Easy to enjoy.** With a tap on your smartphone you can set the ambience. With the Casambi App you can control your luminaires individual or in groups.

#### How to in 5 easy steps

1. Order your desired CTRL DELTA unit (not standard included with luminaire)
2. Install the CTRL DELTA unit
3. Download the Casambi App in the App or Play Store.
4. Find your CTRL DELTA unit in the Casambi app, using Bluetooth.
5. Take a picture of your room and place the light controls upon the related pictures. Now you can visually manage your luminaires directly through the picture.

AVAILABLE HARDWARE	1-10V DALI FE DIMMING 4 CHANNEL FLEX INTERFACE

# SMART 48

New in Lighting Bible 12 is the possibility to dim 48V luminaires or profiles, thanks to Smart 48. It collects the power from the 48V power supply and combines it with a DALI, 1-10V or Touch Dim input and sends it to the 48V converter in the luminaire. With the Dimmable Modulator 48V-DC DIM9, dimming can be done by only using 2 wires for both power and dimming. Or dimming can be done wireless, by choosing for the Wireless Dimmable Modulator 48V-DC.
