Cavity Sliders™

CaviSlider

BraceWall®

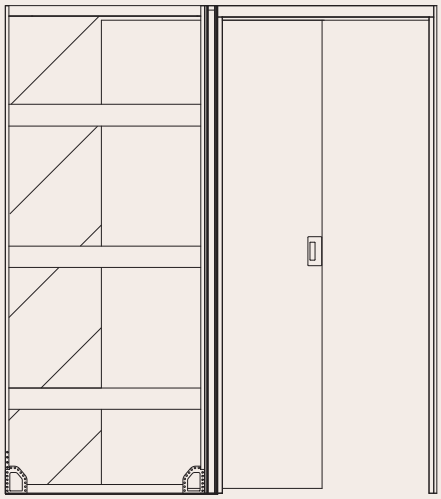

BraceWall®

Features

CS BraceWall® is the ideal solution for installation into a wall where bracing is required. The solution enables all the standard benefits of the CS CaviSlider range, and once installed and lined, the finished appearance is the same as that of a regular cavity slider with the added advantage of an integrated bracing panel.

- Patented design has been tested and analysed by BRANZ and meets all relevant provisions of the New Zealand Building Code, clause B1 'Structure' and B2 'Durability.'
- Designed to fit into standard 90mm wall framing
- Prefixing is done during manufacture - simply bolt down on site to either concrete or timber floor
- Door sizes up to 2982mm high x 3213mm wide with minimum door width of 710mm wide

How to Specify (example)

Product	CS BraceWall Cavity Slider
Location	Living
Door leaf dimensions	2400mm x 1200mm
Door type & finish	Paint quality, flush
Single or Bi-Parting	Single
