Cavity Sliders™

Full-Height

Full-Height

Features

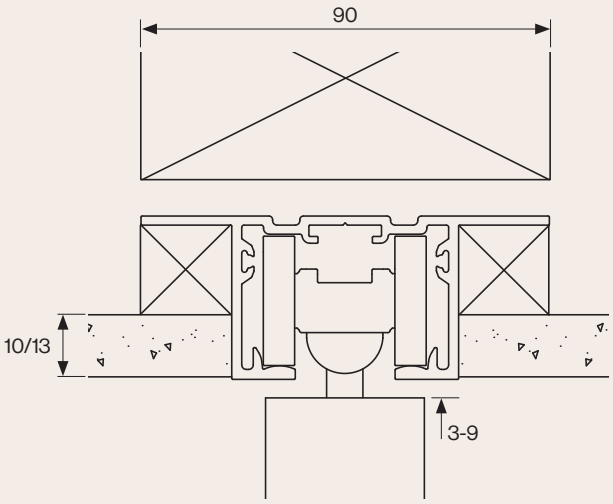

Full-Height detail allows the track's underside to be flush with the ceiling, giving the illusion of a continuous ceiling from one room to another and creating a more spacious feel. Products are supplied without a head jamb, enabling the ceiling to butt directly into the side of the track.

Available with most CS Cavity Sliders and Wardrobe Sliders.

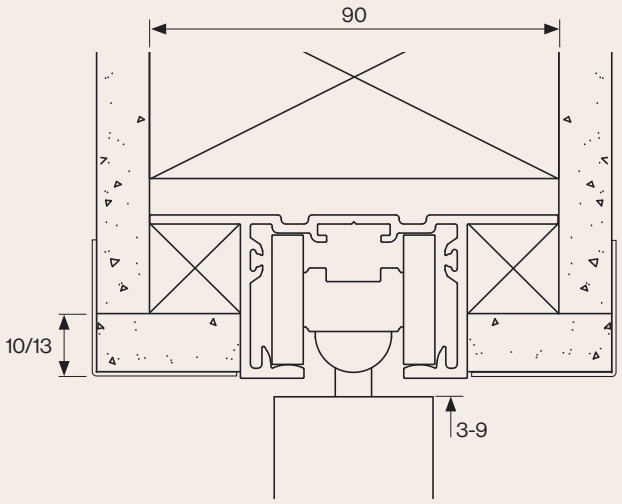

- Minimalist jamb finish that works particularly well with SquareStop and NoClosingJamb units.
- Perfect for large room dividers and areas like hallways where you want a discreet door that's rarely closed.
- The CS SmartMount system streamlines traditional installation processes while making it easy to achieve a seamless, minimal clearance look.
