

| | |
|-------------------------------|--------------------------------------|
| Electrical parameters: | |
| Cable: | Datapur – C 4 x 0,5 mm ² |
| Pulses per mm stroke: | 6 Imp/mm |
| Operating voltage: | 5-24 V DC |
| Maximum voltage: | 28 V DC |
| Current consumption: | <15 mA |
| Output signals: | Rectangular pulse 90° phase shift |
| Output current: | 2 mA (24 V) |
| Circuit protection: | Protection against polarity reversal |

Elero Piccalo XL
Motor
