

SMART**WALL**

BLENDING
SEAMLESSLY
WITH NATURAL
SURROUNDINGS

WHO WE ARE

We're a customer-focused team, dedicated to making it easy for anyone in New Zealand to get the fence they need. We listen to what you tell us and work with you to reach the best solution for your project.

Innovation has been at the heart of what we do at Boundaryline Fencing Systems since the company was founded in Invercargill, with a range of timber Post&Rail fencing many years ago. We quickly found there were people throughout the New Zealand construction industry that liked our way of doing things, so our range of fencing systems grew quickly

to meet the requirements of the market.

Today, with the widest range of fencing systems available on the New Zealand market and located in Auckland, Christchurch, and Invercargill – we have the products, service, and attitude to make fencing easy for you.

INTRODUCING SMARTWALL

Create beautiful natural boundaries to compliment your new landscape environment with Boundaryline's SMART alternative for timber fencing.

Smart**Wall** features steel posts and rails to prevent twisting and warping over time, ensuring you have a premium looking boundary solution for years to come.

With its cross-laminated timber planks and same finish both sides, Smart**Wall** creates a tidy, elegant finish with ultimate stability for every project.

WHAT'S GREAT ABOUT SMARTWALL

SAME-BOTH-SIDES

Both neighbours see the 'good side' of the fence

ULTIMATE STABILITY RADIATA PINE

Cross-laminated palings for ultimate stability

SUPERIOR ACOUSTIC PROPERTIES

Ideal for reduction of noise beside busy roads, and child-care centres.

QUICK AND SIMPLE INSTALLATION

Modular system

COMPLETE PRIVACY

Cross-laminated palings are tongue & groove profile to prevent any gaps

STRUCTURAL INTEGRITY

Pre-finished steel post & rails to prevent twisting and warping over time

MICRO-PRO TREATED PALINGS

GreenGuard certified for play areas used by children of all ages

STEP 4

Fix the **top rail**
into place

Visit boundaryline.co.nz/resources/ for mor information.

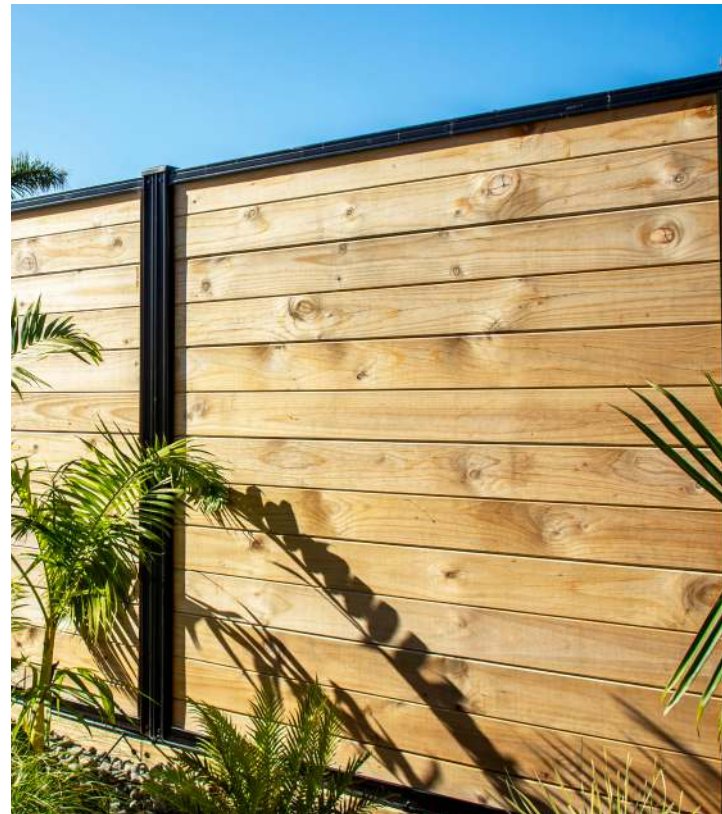

MORE ABOUT **Cross-Laminated Paling**

The CLT paling, manufactured by a respectable brand in New Zealand, is a cross-laminated timber plank developed using high-performance European glue lamination technology.

The gluing of three layers of timber, with the middle layer running perpendicular to the outer layers, provides maximum stability and strength.

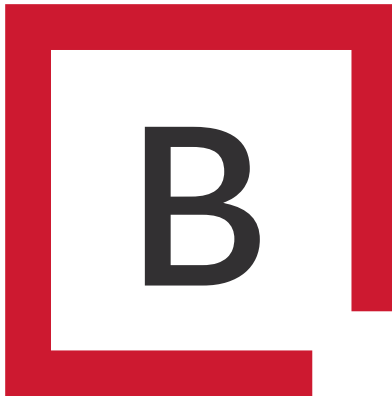

The palings are treated using the environmentally preferable MicroPro timber treatment which is GreenGuard certified for play areas used by children of all ages.

TECHNICAL SUPPORT

We have a range of technical drawings available in DWG, DXF and PDF and Producer Statements are available for quick download at boundaryline.co.nz/resources. Our technical support team are available on 0800 003 006 Mon-Fri to assist with any project or product questions you may have.
