

**INTERIOR
LIVING** by
Ultratop® Loft

INTRODUCTION

Living, enjoying and working in [beautiful environments](#). Creating just the right [atmosphere](#) is the result of aesthetic and environmental choices that highlight [functionality](#) and [personality](#): Two features that can live together in harmony. [Cementitious](#) surfaces represent an original opportunity to go beyond conventional floors. This is what lies behind MAPEI's idea for a specific, [innovative](#) system in which shades and lines combine with end results to become the essence of contemporary [interior design](#). ***Ultratop Loft*** systems go beyond simple design to provide an additional [value](#): Maximum [reliability](#), regardless of the amount of foot traffic. This [durable](#) beauty is thanks to its [high-performance](#) properties of mechanical and [abrasion resistance](#) in continuous flooring.

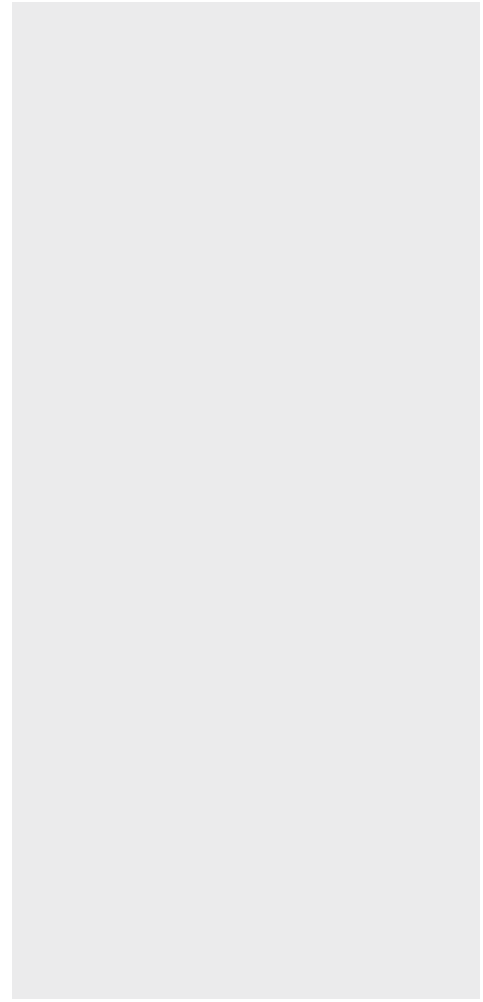

WORK SPACES

The concept of freedom aims for absolute involvement between floors and walls, which come to life with a natural tangible impact. From workspaces to relaxation areas, our vision encompasses wider, more harmonious horizons: Creating and maintaining distinct personalities, while protecting overall compositional harmony.

SHOWROOMS

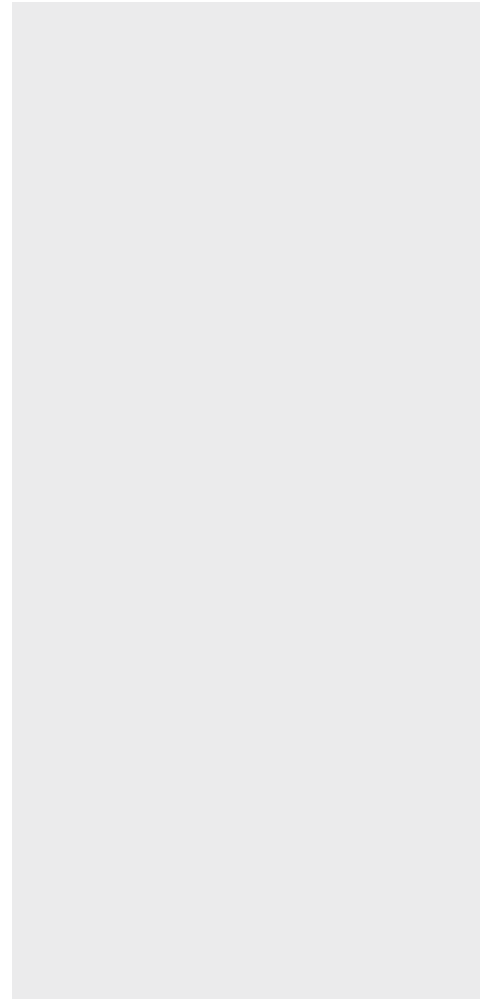

Whether showrooms are used for displaying high-end fashion brands, sports cars, precious stones or wines, the unifying feature is the atmosphere that architectural design is capable of creating: A seamless, high-quality, high-impact flow. This fluid mood between floors and walls, a point-counterpoint of horizontal and vertical aspects, also involves merchandising features and lighting displays in a harmonious dialogue.

HOTELS and RESTAURANTS

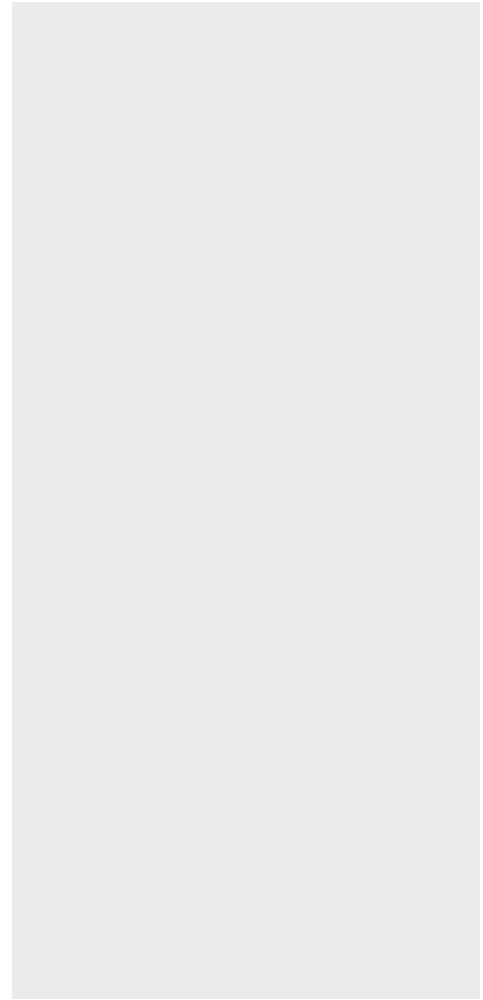

The beautiful things in life provide privileged spaces for design and architectural creativity. Meeting and gathering spaces such as restaurants can now add visual pleasures to those of the palate. Each individual surrounding offers an expressive force to the dining table, resting on surfaces where tones, textures and colors combine to charm, define and identify.

SPA CENTERS

In these new sanctums of well-being, the view and emotional involvement are essential parts of the experience, with an added creative exercise: A dialogue with the water. The antique culture of spa centers combines with unique experiences. The harmony of the surfaces is at the root of their charm, tactile as well as visual.

LIVING SPACES

WITH FURNITURE

Different levels within the same compositional framework, such as stairs and lift structures, require a new harmony within their design. The aesthetic *Ultratop Loft* choices for horizontal surfaces may also be incorporated vertically and into furnishings, to create surprisingly expressive continuity.

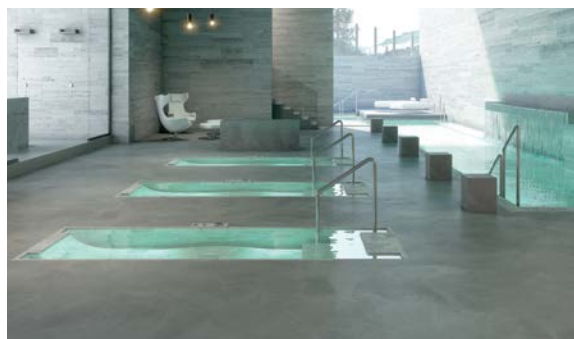

FEATURES and BENEFITS

- For horizontal, vertical and overhead applications
- Monochromatic or tone-on-tone
- Harmonious shades between colors
- Mixable into multiple colors and textures
- Easy preparation and installation
- High strength and abrasion resistance
- For repairing existing surfaces and creating new coatings
- UV-resistant
- Easy to clean and maintain

WHERE TO USE

For **interior** use only

Spas and **wellness** centers

For **residential** settings

Museums and **art galleries**

For **commercial** projects

Restaurants and **hotel lobbies**

For **retail** projects

Stairways
