

STABIFENCE

Fence panel and pedestrian gate

StabiFence is a modern and low maintenance fencing solution. Using StabiWood Recycled Wood Plastic Composite (RWPC) boards which are made from 90% recycled materials and aluminium posts to create a stable and stylish fencing solution that looks and feels like natural timber but is resistant to UV, warping and rotting. By providing excellent durability, privacy, security, and adaptability, it's ideal for use in residential and light commercial projects.

FEATURES:

- Contemporary design with the look and feel of natural timber but with added benefits
- Modular, lightweight and easy to install
- Made from 90% recycled materials
- StabiWood is available in three prefinished colours - Black, Grey and Mahogany
- Solid panel, Slat or a combination of both options are available
- Solid panels are available in horizontal and vertical configurations
- Low Maintenance - no painting, staining or oiling required
- Contains UV stabilizers so will not twist, warp or discolour
- Anti-mould agents to help protect the fencing against rot and mould
- Brackets and hardware supplied
- Custom sized pedestrian and driveway gates available
- Gate automation and access control systems available

IDEAL FOR:

- Residential
- Medium and high density intertenancy fencing
- Commercial
- Pool fencing (residential only)
- Screening of refuse and plant areas
