

PANIC HARDWARE

For Toughened Glass Doors.

TRANSPARENCY, SAFETY AND SECURITY IN ONE

DORMA PHA 2000-200 Series toughened glass doors – satisfying the safety requirements of Access and Egress within the National Construction Codes.

In high use buildings, safety has to be the number one priority and emergency escape routes must be relied

upon to function properly everytime. However, their design also needs to be sympathetic with the overall architectural concept. The PHA 2000 series from DORMA is the ideal hardware solution for both single and double doors.

It meets the safety requirements of EN 1125 for panic exit devices while also satisfying exacting aesthetic demands. With this high quality solution, toughened glass door sets are able to offer all that is required of an emergency exit while also imparting a light, bright and open

atmosphere to the area served – to the benefit of hotels, airports, exhibition centres and conference rooms, for example.

The combination of DORMA's PHA 2000 series Panic Exit Devices and custom manufactured Glass Door Hardware allows for Maximum light and space, while still affording unparalleled led safety and reliability - DORMA, Inspirational

VERSATILE, SAFE AND SECURE

DORMA's PHA 2000-200 series can be fitted to a wide range of toughened glass doors, offering high user safety and security, easy and reliable operation and excellent quality for a long service life.

Their features at a glance:

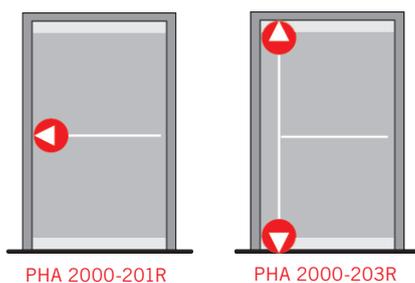

- For doors in all glass or framed assemblies.
- For single and double doors
- Single or multi-point locking
- Suitable for combination with external glass door fittings
- Tested and certified to EN 1125 (PHA 2000)
- Quality management system certified to ISO 9001
- Award winning DORMA Contur design
- Non-handed hardware
- For 12–15 mm toughened safety glass (single panel)
- Standard stainless steel similar design
- Maximum leaf width: 1,300 mm
- Maximum leaf height: 3400 mm
- Available in patch fitting and door rail variants

An impressive integrated solution for a conference facility, DORMA's PHA 2000 series harmonises well with a single leaf toughened glass door.

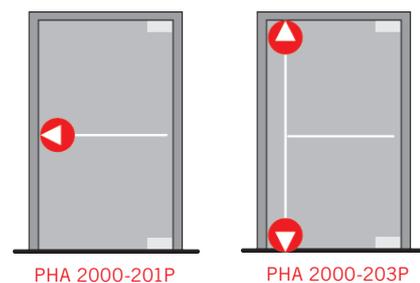

*Photos are indicative only – supplied solutions may differ slightly due to hardware and glass preparation requirements.
