

Vinyl Tone

PLASTERBOARD CEILING TILE

Impact resistant, Cleanable

Square edge (SQ)

Item #	Dimension	Edge
VW6110	1195 x 595 x 10mm	Square

Description

Vinyl Tone Plasterboard Ceiling Tiles are hard wearing and impact resistant. The washable vinyl surface is resistant to mould growth. The foil treatment to the back face and taped edges to all four sides provide a moisture resilient, dry cell ideal for cleanroom applications.

Durability

Vinyl Tone Plasterboard Ceiling Tiles are hard wearing and impact resistant. The washable vinyl surface is designed for cleanroom, kitchen and foodtech areas and can be easily wiped clean on a regular basis. The back face has a moisture resilient foil layer providing a barrier against moisture egress from the plenum space.

Ideal uses

- Food service / processing
- Cleanroom / washroom areas
- Retail spaces, supermarkets

Laboratory and Bio Secure Applications

For pressurised rooms, Vinyl Tone can be supplied with closed cell foam seal tape and hold down clips to secure the tiles to FasTLock Suspended Ceiling Grid.

How to specify

Ecoplus Systems products are available for specification on Masterspec and Smartspec. Specification documents can also be downloaded from www.ecoplus-systems.com or call 0800 432 675

Composition

Vinyl Tone Plasterboard Ceiling Tiles are manufactured from gypsum plaster with a hard wearing white vinyl surface. The tiles have a foil treatment to the back face. Edges are tape sealed.

Airborne Sound Reduction - ASTM E413-87
