

Hinged and French Doors

Hinged door frame (106mm) – open-out.

Key Features

- Flush meeting stiles for French doors
- Open-out and open-in frames available
- Frame facing adaptors available
- Parliament hinges allow doors to open outwards a full 180° in brick veneer situations
- French door flush bolts are concealed from view in the leading edge of the 'lazy' door panel
- Overlights and sidelights are possible
- A range of door handle and lock options are available, including multi-point locking.

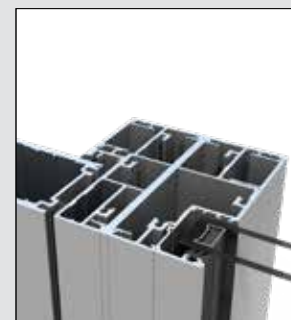

Open-in door with weather bar on door rail.

Hinged door frame (158mm) – open-out.

French door meeting stiles.

Hinged door, coupling bar and silight on right.

Specifications

Dimensions

Recommended maximum panels of 2700mm high and 900mm wide

Maximum Glass Thickness

28mm IGU

Thermal Values

Consult APL Technical Department

Performance

Tested to Extra High Wind Zone

Design Considerations

- Single panels ideal as utility doors
- Open-in frame available but open-out applications will generally be preferred for utility and French doors.
