

The Latest in Garage Door Style

Nevada Flat Panel Sectional

DESIGNED WITH CURRENT TRENDS IN MIND

A refined flat folded negative detail design produced from heavy gauge steel creates a finish that is well proportioned and strong. The Nevada is an ideal choice for contemporary house designs that demand simplicity or for larger garage openings.

Whether you want to match your roof, walls or windows, the Nevada sectional door has the colour palette to suit. Available in Zinalume[®] or Powder Coated from a range of quality Dulux[®] Powders, your home's unique colour scheme will be enhanced by this premium Garador[®] garage door and opener.

Ensure worry-free operation, with a new Garador GDO opener featuring advanced TrioCodeTM 128 multi-frequency technology.

YOU HAVE THE CHOICE

Garador's unique history of over 40 years within the industry has resulted in an in-depth knowledge of garage door products, installation requirements and service. Garador truly are the garage door specialists.

Many people choose a Garador door for this very reason and now there is another, our Nevada Flat Panel garage doors.

Since you're creating an individual home to suit your taste, we've developed our Nevada Flat Panel to add further uniqueness to our already vast range of styles. Call 0800 GARADOR (427 236) or visit www.garador.co.nz to find your nearest Garador Dealer to discuss what this exciting new style of Insulated Door could mean for you and your family's lifestyle.

It looks great and it's insulated - Garador's range of sectional garage door styles just got even better!

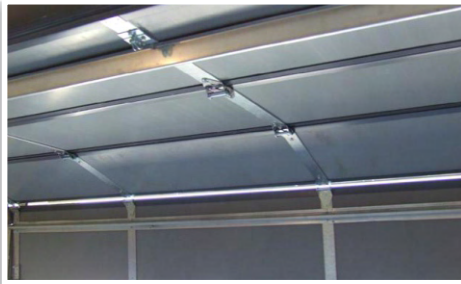

The flat folded design of the Nevada provides a solid aspect to any garage opening. Its eye-catching look with bold crisp lines is a result of its 'negative detailing' and is a perfect match with modern architectural trends.

The Latest in Garage Door Style

Nevada Flat Panel Sectional

The negative detail adds visual appeal

Nevada Doors are factory insulated

Works with a wide range of cladding

Whether you require a new garage door or are upgrading, you've got to consider our premium Nevada Flat Panel Insulated door.

GET THE USE OF YOUR GARAGE BACK

We factory-fit a sophisticated insulator used the world over to our Nevada door. Silver-grey in colour, this unique product is EPS infused with graphite providing around **20% better insulating performance** than the standard EPS offering.

At the same time your door becomes an excellent barrier to noise pollution. The acoustic dampening qualities provide a perfect shield against noise entering and/or exiting your garage.

A BRAND WITH A HISTORY YOU CAN TRUST

We've taken what we know works here in New Zealand, and added a refined negative detailing to our time-tested flat-folded steel sectional door. All this with the same quality hardware, attention to detail, professional installation & service that clients around New Zealand have come to know and expect from the trusted people of the Garador® brand.

The Garador Nevada Flat Panel is built to last and most importantly, has our backing so you can be confident that one of the main access points into your home won't let you down.

WARRANTY

Peace of mind is important, that's why your Nevada Flat Panel door comes with a **5 year warranty** for steel door panels & associated labour, **1 year warranty** for surface coating, locking mechanism & all other components & associated labour (excludes salt corrosion).

GARADOR OPENERS CREATE ADDED CONVENIENCE

With super quiet variable speed operation, belt drive options and feature rich design, Garador Garage Door Openers are amongst the best in the world and professionally installed across New Zealand by trained authorised dealers.

RELIABLE AND SECURE

Your Garador garage door is not only positively locked by the opener gearing, it benefits from our revolutionary new garage opening transmitter system, TrioCode™128.

Using the same 128-bit Advanced Encryption Standard (AES) security as relied upon by banks, (there's 309 trillion trillion code possibilities) it also transmits across three frequencies to overcome wireless interference issues.

Basically, you're 8 billion billion times more likely to win First Division Powerball than pick the correct TrioCode™128 code combination - one less thing to worry about.

Featuring TrioCode™128 Technology
