

COLOUR RANGE

FORMICA® RANGE

FORMICA HIGH PRESSURE LAMINATE

is perfect for work surfaces and benchtops. It's durable, easy to clean and available in the entire Formica Colour Range in Velour finish or selected colours in Gloss finish.

FORMICA® GlossPlus™ is a superior high gloss laminate. With greater abrasive and scuff resistance, horizontal and vertical surfaces will maintain their shine over standard gloss laminates. The 19 stunning GlossPlus colours are part of the Formica Colour Range so creating beautiful colour schemes is easy. Something else quite brilliant about Formica GlossPlus - it's covered by a 7 year limited warranty.

Formica® HPL are Good Environmental Choice Australia certified products. Formica® is marketed and distributed by The Laminex Group – a division of *FLETCHER BUILDING PRODUCTS LTD.* The colours depicted in this brochure are a close to the Formica® colour range as modern printing processed allow. Colour/finish combinations are subject to availability. Colours/finishes shown are available at the time of publication, but may be withdrawn. Dark colours and gloss finishes require more care and maintenance than light-coloured and lower gloss surfaces. The Laminex Group recommends the use of laminate cleaning products (or mild household cleaning products) for dark colours; please visit our website, as above, for specific care and cleaning information. Please note in certain lights or from certain angles wipe down marks may be visible. Formica® laminates are no different than any other material in that darker colours will always show scratches and superficial wear and tear more readily than lighter colours. Formica® laminates should be protected from strong direct sunlight as continuous exposure may cause discolouration or fading to the surface over time. Please obtain a copy of the terms and conditions of the applicable Formica® 7 year warranty from The Laminex Group or visit our website. This warranty is in addition to any rights that may exist under the Consumer Guarantees Act (NZ).
