700 Marine Series

Door Furniture

The Legge 700 Marine Series door furniture has been designed for heavy duty commercial applications. This Series is constructed from 316 marine grade stainless steel making it suitable for both external and internal applications. It is suitable for use in high traffic applications such as retail, educational, government buildings, healthcare and commercial premises.

The handing mechanism of this Series allows the furniture to be handed on site, prior to installation by rotating the lever to the preferred hand and fitting the stop block to secure it's position.

316 Satin Stainless Steel properties include:
- Increased wear resistance
- Corrosion resistant
- Suitable for coastal applications
- Suitable for areas where hygiene is important

Features

- Constructed of quality components, with cast 316 grade stainless steel levers and plates
- The heavy duty spring provides a smooth, fast return action of the lever and eliminates droop extending the life of the furniture
- Symmetrically designed levers are able to be handed on site prior to installation, by rotating the lever and fitting the stop block to secure it's position

Testing and Compliance

Fire Rating:
Successfully tested on fire door assemblies in accordance with AS1905 Part1: Fire resistance doorsets. Check with fire door manufacturer prior to installation.

Accessibility:
Compliant to the AS 1428:1-2009 Design for Access and Mobility.

Caution:
When door closers are installed and adjusted to meet reduced opening force requirements, there may be insufficient power to reliably close and latch the door, depending on prevailing operating conditions.

Note:
In areas of high wind pressure and/or air conditioning pressures, the LCN Automatic Door Operators are recommended.
