

Juralco Viking Balustrade System - Typical Fixing  
 Typical Face Fix to Steel - JVB 137/45, Gutter Bracket - M10 Bolts

- Important Notes:
- 1 - A Design engineer must ensure the structure can support the appropriate loading at each Post
  - 2 - An EPDM, Rubber or Foam Tape layer must be installed between the Gutter Bracket and Steel
  - 3 - All fixings must be Stainless Steel

Additional Note for Semi Framless 10mm Toughened Glass Balustrade only.  
 An Interlinking Rail mounted on a JEC 29 Bracket attached to every Post, must be used to conform to NZS 4223.3.2016 and Building Code Clause B1.3.4.  
 Refer to the manual for specific details.
